Οι Επιλογές Μας Δηλώνουν Ποιοί Είμαστε

Στην **ΕΛΔΙΚΟ** όλα είναι μία αλυσίδα αποτελούμενη από συνεργάτες και προμηθευτές, η οποία στηρίζεται σε διαδικασίες δοκιμασμένες στο χρόνο.

Σε επίπεδο brand name δημιουργήσαμε τα **ESCAPE** και **AMILA**, τα οποία αυτή τη στιγμή αναπτύσσουμε περαιτέρω. Βάζοντας τον πελάτη στο κέντρο των διαδικασιών μας, επιδιώκουμε να γίνουμε πρότυπο πελατοκεντρικής εταιρείας και πρώτη επιλογή των πελατών μας.

Αγαπάμε τους ανθρώπους μας, αγαπάμε και σεβόμαστε τους πελάτες μας και προσπαθούμε μέσα από την ομαδική εργασία να τους υπηρετήσουμε σωστά **κερδίζοντας έτσι επάξια και τον δικό τους σεβασμό.**

ISO 9001:2015

Για να εξασφαλίσει την ποιότητα και ασφάλεια των προϊόντων της, η **ΕΛΔΙΚΟ** φρόντισε να εγκαταστήσει στις λειτουργίες της Σύστημα Διασφάλισης Ποιότητας [ΣΔΠ] σύμφωνα με το Διεθνές πρότυπο **ISO 9001:2015**.

Πρακτικά, αυτό σημαίνει ότι η **ΕΛΔΙΚΟ** πέρασε από όλα τα απαιτούμενα στάδια προετοιμασίας και πλέον περνάει με επιτυχία τις επιθεωρήσεις που πραγματοποιούνται μία ή δύο φορές το χρόνο.

Με το **ISO 9001:2015** διασφαλίζεται η εισαγωγή, η παραλαβή, η παραγγελιοληψία, η συσκευασία και αποστολή των προϊόντων της μέσα από **συνεχείς, αυστηρούς ελέγχους** που αποτελούν αναπόσπαστο κομμάτι της λειτουργίας της.

Η δέσμευση **ISO 9001:2015** συνάδει με την επιθυμία της **ΕΛΔΙΚΟ** να δείχνει τον μέγιστο σεβασμό στον πελάτη της, να αντιμετωπίζει με σοβαρότητα και επαγγελματισμό κάθε πιθανό πρόβλημα και να κινείται ανοιχτά για την επικοινωνία και την επίλυσή του.

Εφαρμόζοντας τη νομοθεσία τόσο του ελληνικού κράτους, όσο και της Ευρωπαϊκής Ένωσης σχετικά με την ασφαλή φύση των προϊόντων της και την ασφάλεια των καταναλωτών, η **ΕΛΔΙΚΟ** εκπληρώνει ουσιαστικά τη φιλοδοξία της να έχει στο επίκεντρο της προσοχής της τον πελάτη, οικοδομώντας γύρω του ένα **Σύστημα Διασφάλισης Ποιότητας** που τον εξασφαλίζει σε όλα τα επίπεδα.

Το Όραμά Μας

Να είμαστε μια πρωτοπόρα εταιρεία με ισχυρό brand name και καινοτόμα προϊόντα, πρότυπο για πελάτες και ανταγωνιστές, πρώτη επιλογή για συνεργάτες. Μέσω της μάθησης, της προσωπικής ανέλιξης και της ουσιαστικής συμμετοχής στην πρόοδό της να καλλιεργεί στους εργαζομένους της κουλτούρα οργάνωσης, καινοτομίας, ομαδικής εργασίας και πνεύμα αλληλοσεβασμού εντός και εκτός εταιρείας.

Εταιρική Κοινωνική Ευθύνη

Η **ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ** πρωτοπορεί στον κλάδο των εισαγωγών και της εμπορίας αθλητικών, εποχιακών και ειδών εξοχής, ενώ παράλληλα πρωτοστατεί στο σύστημα Εναρτηλακτικής Διαχείρισης.

Η προστασία του περιβάλλοντος αποτελεί σημαντική της βίβληση, γι' αυτό και συμμετέχει στο **Σύστημα Συη. Εναρτηλακτικής Διαχείρισης "ΑΝΑΚΥΚΛΩΣΗ"** της Ελληνικής Εταιρείας Αξιοποίησης Ανακύκλωσης ενώ παράλληλα υλοποιεί **πρόγραμμα μείωσης του πλαστικού στις συσκευασίες**, αντικαθιστώντας το με ανακυκλώσιμο χαρτί.

Η **ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ**, στα πλαίσια της **Εταιρικής Κοινωνικής Ευθύνης**, έχει τη χαρά να βοηθά την προσπάθεια του φοιτητικού σωματείου **"Circle Club"**, που δραστηριοποιείται στους τομείς του μπάσκετ, του ποδοσφαίρου, του τένις, και του cheerleading, μέσα από τα προϊόντα που παρέχει δωρεάν για τις προπονήσεις και τα πρωταθλήματα που συμμετέχουν.

- ◀ Επίσκεψη στο εργοστάσιο κατασκευής πάγκων της AMILA. Επιθεώρηση βαφής και laser cut.

- ▲ Η ποιότητα της συσκευασίας και της προστασίας των προϊόντων πριν συσκευαστούν σε κουτιά, είναι ζωτικής σημασίας για την προστασία των προϊόντων κατά την μεταφορά και αποθήκευση. Η γνώση για όλα τα στάδια της συσκευασίας είναι σημαντική για την κατανόηση της προσφερόμενης ποιότητας από το εργοστάσιο.

Επιλογή Προμηθευτών

Η επιλογή των κατάλληλων προμηθευτών γίνεται μέσα από μια εκτεταμένη τράπεζα πληροφοριών η οποία **εμπλουτίζεται συνεχώς από τις επισκέψεις και επαφές μας σε διεθνείς εκθέσεις.**

Τα κριτήρια μας είναι αυστηρά αναφορικά με την ποιότητα των προσφερόμενων προϊόντων και βασίζονται σε μια δυνατή - αμφίδρομη σχέση επικοινωνίας.

Συνεργαζόμαστε με εργοστάσια που κατασκευάζουν ποικίλα προϊόντα, τα οποία προμηθεύουν, επίσης, επώνυμα brands και φυσικά είναι **πιστοποιημένα με ISO**, ώστε να έχουμε εξασφαλισμένη την οργάνωση και την εξυπηρέτηση από μέρους τους.

Έχουμε επιλέξει ορισμένα από τα καλύτερα εργοστάσια της Κίνας, της Ταϊβάν και του Πακιστάν, με στελέχη που γνωρίζουν καλά την αγγλική γλώσσα, προς αποφυγή παρανοήσεων, τα οποία ανταποκρίνονται σε κάθε μας αίτημα, ηλεκτρονικώς, εντός μίας ημέρας.

Πάγια πολιτική μας είναι να παραμένουμε πιστοί στους προμηθευτές μας, καθώς **επενδύουμε χρόνο και χρήμα στη συνεργασία μας** -με πολυημερές επισκέψεις στα εργοστάσιά τους για επιτόπου έρευνα- ώστε να έχουμε τη βέλτιστη συνεργασία.

Επιλογή Προϊόντων

Το τμήμα πωλήσεων μας μεταφέρει τις δικές σας προτάσεις ώστε να καλύψουμε τυχόν κενά στην αγορά, ενώ το τμήμα εισαγωγών συγκεντρώνει στοιχεία, ώστε να καθορίσει τόσο τις προδιαγραφές των νέων προϊόντων, όσο και την επιθυμητή τιμή αγοράς.

- ▲ Επίσκεψη στο εργοστάσιο κατασκευής δίσκων της AMILA. Επιθεώρηση διαδικασίας πλαστικοποίησης.

Οι διαδικασίες μας αποτελούν εγγύηση επιτυχίας

Η ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ έχει καθορίσει διαδικασίες τις οποίες ακολουθεί προκειμένου να πετύχει:

- Ποιότητα Προϊόντων
- Διαθεσιμότητα Προϊόντων
- Αποθέματα Ανταλλακτικών

Εξασφαλίζουμε τους Συνεργάτες μας

Η πολυχρόνη εμπειρία μας, η βαθιά γνώση της ελληνικής αγοράς και κυρίως κάθε προϊόντος, είναι στη διάθεσή σας ώστε να είμαστε πάντα σε θέση να σας εξασφαλίσουμε κάτι ακόμα καλύτερο. Απόδειξη το γεγονός ότι **έχουμε βελτιώσει όλα τα προϊόντα που εισάγουμε**, ώστε να ανταποκρίνονται στις απαιτήσεις μας και να είναι όλα λειτουργικά, ακόμα και αυτά που διατίθενται σε ιδιαίτερα ελκυστικές τιμές.

1. Σας παρέχουμε ποιοτικά σωστά **προϊόντα με συγκεκριμένες προδιαγραφές**, χωρίς λάθη, από έμπειρους προμηθευτές που έχουμε εκπαιδεύσει.
2. Σας προμηθεύουμε με προϊόντα **σταθερά υψηλής ποιότητας**.
3. Σας εξασφαλίζουμε **διαχρονικά σωστό service**.
4. Κερδίζουμε την εμπιστοσύνη σας στα προϊόντα μας χάρη στην **απόρροια ομαλή συνεργασία μας**.

Μηχανογράφηση

Η **ELDICO** είναι πλήρως μηχανογραφημένη στα πρότυπα **ERP [Enterprise Resource Planning]** και διαθέτει 3 servers, τελευταίας γενιάς, με 5 δίσκους έκαστος (raid) για μεγαλύτερη ασφάλεια.

Ζύγιση
ποιοτικός έλεγχος
και έλεγχος με
χρήση barcode scanner

Άφιξη

1. Κατά την άφιξη του κοντέινερ στα ειδικά ντοκ, γίνεται προσεκτική εκφόρτωση των προϊόντων χρησιμοποιώντας τα πλέον κατάλληλα μέσα, ανάλογα με το είδος και την συσκευασία του εμπορεύματος.
2. Κατά την διάρκεια της εκφόρτωσης γίνεται ένας συνοπτικός έλεγχος που αφορά:
 - Προδιαγραφές, χρώματα, barcodes και κωδικούς.
 - Ελέγχεται η συσκευασία ώστε να είναι σε άριστη κατάσταση. Εάν βρεθεί απόκλιση, αποθηκεύεται σε ιδιαίτερο μέρος.
3. Στο τέλος, ακολουθεί καταχώρηση και εισαγωγή στην αποθήκη με χρήση barcode scanners.

Φύλαξη

Η αποθήκη που φιλοξενεί τα προϊόντα είναι καθαρή και τακτοποιημένη, ενώ η ύπαρξη υπευθύνων περιοχών και οι εβδομαδιαίοι έλεγχοι μας έχουν αποφέρει 98% σωστές θέσεις/ράφι και 97% καθαρά εμπορεύματα.

Σε έναν ιδιόκτητο χώρο συνολικής έκτασης 4200m² για γραφεία και αποθήκες, στο Βοτανικό, βρίσκεται το κεντρικό κτήριο της ΕΛΔΙΚΟ.

Άποψη της αποθήκης μας στη Θεσ/νίκη, συνολικής έκτασης 4300m² με δυνατότητα αποθήκευσης 85 container 40HQ.

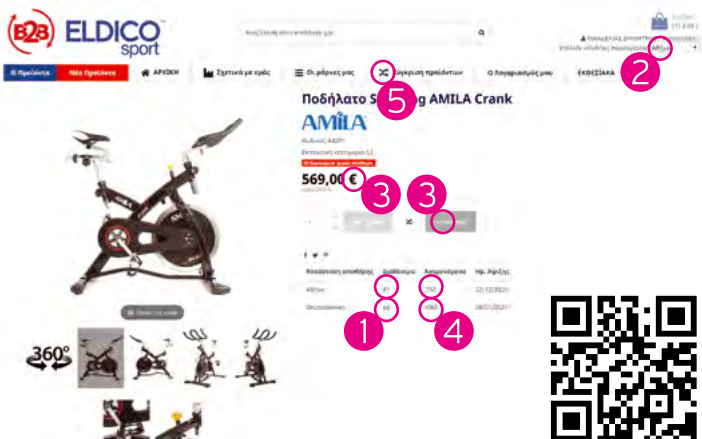

Παραγγελιοδηψία

Γίνεται από τη γραμματεία πωλήσεων και από τους πωλητές σε Αθήνα και Θεσ/νίκη. Τόσο οι πωλητές όσο και η γραμματεία πωλήσεων και οι συντονιστές παραγγελιών εκτός της πολυετούς πείρας (οι περισσότεροι πάνω από 15 χρόνια), εκπαιδεύονται διαρκώς και είναι σε θέση να απαντούν στις ερωτήσεις σας και να σας συμβουλεύουν για την αγορά ή τη χρήση των προϊόντων που σας ενδιαφέρουν.

Το ψηφιακό τηλεφωνικό κέντρο μας επιτρέπει να **ανοίγουμε αυτομάτως την καρτέλα** και να **εισάγουμε άμεσα την παραγγελία σας**, η οποία ενδέχεται ακόμα και να καταγραφεί, για την αποφυγή οποιουδήποτε πιθανού λάθους.

Οι εγκαταστάσεις και ο στόλος οχημάτων των αποθηκών της ΕΛΔΙΚΟ στη Βόρεια Ελλάδα.

Η ανανεωμένη πλατφόρμα B2B (Business to Business)

Η υπηρεσία είναι συνδεδεμένη με το εμπορικό πρόγραμμα της εταιρίας ώστε να παρέχει άμεσα και σε πραγματικό χρόνο πληροφόρηση.

Εκτός από τις διαθεσιμότητες των προϊόντων, σε κάθε μια από τις δύο αποθήκες μας (1), οι εγγεγραμμένοι χρήστες μπορούν να επιλέξουν την αποθήκη παραγγελίας τους (2) και να δουν την χονδρική τιμή καταλόγου και την τιμή αγοράς τους (3). Επίσης, παρέχεται η πληροφόρηση για την αναμενόμενη ποσότητα καθώς και για την ημερομηνία επόμενης παραλαβής (4).

Επιπλέον, από την λίστα των προϊόντων κάθε κατηγορίας, μπορούν να προστεθούν προϊόντα στη λίστα σύγκρισης (5) και να εμφανιστούν, σε στήλες, τα χαρακτηριστικά των επιλεγμένων προϊόντων.

Δείτε το δίκτυο **επιλεγμένων συνεργατών** μας στη διεύθυνση **eldico.gr/partners** ▶

Τα προϊόντα της ΕΛΔΙΚΟ βρίσκονται σε περισσότερα από 5.000 σημεία πώλησης. Από αυτά περίπου 1.600 αφορούν απ' ευθείας πωλήσεις και 3.500 είναι σημεία πώλησης μέσω 50 μεγάλων συνεργατών. Στα Βαλκάνια και στην Κύπρο η ΕΛΔΙΚΟ έχει παρουσία σε 50 επιπλέον σημεία πώλησης, κυρίως απ' ευθείας.

Με **έμφαση στην ποιότητα**, η αποστολή των εμπορευμάτων αποτελεί πολύ σημαντικό κριτήριο για την ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ και ένα από τα τρία (3) βασικότερα κριτήρια για την πιστοποίησή μας.

Εκτέλεση Παραγγελιών

Το προσωπικό της αποθήκης μας διαθέτει εμπειρία ετών, γι' αυτό και μπορεί να κάνει picking του σωστού κωδικού, **χωρίς οποιοδήποτε ελάττωμα** στα προϊόντα ή την συσκευασία τους.

Στη συνέχεια, κάθε παραγγελία κατεβαίνει στον χώρο συσκευασίας και **σκανάρεται τεμάχιο προς τεμάχιο**, ώστε να γίνει **οργανωμένη και σωστή αποστολή**, μηδενίζοντας έτσι την εμφάνιση λαθών.

Μετά τον τελικό έλεγχο ποσότητας και την επιβεβαίωση του κωδικού, συμπληρώνεται ο αριθμός του κιβωτίου και ο υπεύθυνος το συσκευάζει καλά, δίνοντας σημασία στη σωστή αναγραφή ονομάτων και αριθμού δεμάτων, ενώ παράλληλα φροντίζει να γίνει με ταχύτητα και ασφάλεια η φόρτωση.

Σημαντικό είναι το γεγονός πως **το τιμολόγιό μας αποτελεί ταυτόχρονα packing list** ώστε η παραλαβή να γίνεται χωρίς λάθη και απρόοπτα.

Στην προσπάθειά μας να βελτιώσουμε την έκδοση του καταλόγου μας, λαμβάνουμε πάντοτε σοβαρά υπόψη μας τα σχόλια και τις παρατηρήσεις σας, για τις οποίες σας ευχαριστούμε θερμά.

Βελτιώνουμε συνεχώς τον κατάλογο μας ακολουθώντας τις βέλτιστες πρακτικές στην παρουσίαση προϊόντων, και φροντίζοντας να τον κάνουμε κάθε χρόνο πιο λειτουργικό. Πιστεύουμε ακράδαντα ότι ο παρών κατάλογος θα γίνει χρήσιμο εργαλείο στα χέρια σας για την ολοκληρωμένη ενημέρωσή σας, εφόσον μπορεί να σας βοηθήσει στην σωστή επιλογή των προϊόντων σας.

Επίσκεψη του τεχνικού μας στο εργοστάσιο κατασκευής κινητήρων ► για ενημέρωση και έλεγχο της ποιότητας των διαδικασιών του εργοστασίου.

Φόρτωση

Τα προϊόντα αναχωρούν **άριστα συσκευασμένα** από τις εγκαταστάσεις μας, ώστε να αποφεύγεται κάθε δυσάρεστη έκπληξη από εμπλεκόμενες εταιρείες μεταφορών.

Διανομή

Η διανομή πραγματοποιείται με **3 μεγάλα (10T)** και **3 μικρότερα ιδιόκτητα φορτηγά (5T)**, που εξασφαλίζουν την απαιτούμενη ταχύτητα εξυπηρέτησης, την αμεσότητα και -κυρίως- την ασφάλεια στις μεταφορές.

Ο συντονισμός της παράδοσης είναι αρμοδιότητα του υπεύθυνου της αποθήκης ώστε να είμαστε σίγουροι ότι θα είμαστε **απόλυτα συνεπείς απέναντί σας**.

Έρευνα και Εξέλιξη

Σε συνεργασία με τη **Σχολή Επιστημών Υγείας & Πρόνοιας του Πανεπιστημίου Δυτικής Αττικής**, για το πρόγραμμα "Εκπαίδευση και Θεραπευτική Άσκηση με την εφαρμογή της μεθόδου Clinical Pilates" του **Κέντρου Δια Βίου Μάθησης η ΕΛΔΙΚΟ** βρίσκεται σε διαρκή επαφή, διαθέτοντας τα προϊόντα **AMILA** για τις ανάγκες των προγραμμάτων και των εργαστηριακών μετρήσεων που εκπονούνται, λαμβάνοντας σημαντικές πληροφορίες για την εξέλιξη των βοηθημάτων που παρέχει.

Διαρκής Εκπαίδευση

Στην προσπάθειά μας να σας εξυπηρετούμε καλύτερα, ακολουθούμε τη **φιλοσοφία διαρκούς εκπαίδευσης**. Το προσωπικό της αποθήκης εκπαιδεύεται τακτικά σε θέματα logistics, συσκευασίας, μηχανογράφησης, ασφάλειας αποθήκης και πυρόσβεσης. Η γραμματεία πωλήσεων και οι πωλητές εκπαιδεύονται τακτικά και έχουν τη δυνατότητα να απαντήσουν στις περισσότερες ερωτήσεις σας, καθώς και να σας βοηθήσουν να επιλέξετε τα σωστά εμπορεύματα για τις ανάγκες των πελατών σας.

Δημιουργία Περιεχομένου

Οι σύγχρονες απαιτήσεις της ψηφιακής εποχής δημιουργούν συνεχώς ανάγκες για ορθότατα και πλουσιότερο περιεχόμενο. Το τμήμα Marketing της **ΕΛΔΙΚΟ** επανδρώθηκε με νέο προσωπικό που εξειδικεύεται στην **κατασκευή φωτογραφιών 360 μοιρών***, **videos συναρμολόγησης και λειτουργίας, ασκησιοδημιουργιών και κειμένων** σε συνεργασία με επιστήμονες φυσικής αγωγής και personal trainers, που σκοπό έχουν τη δημιουργία **εργαλείων προώθησης** τα οποία θα κάνουν τον υποψήφιο χρήστη να αισθάνεται όχι απλά ότι γνωρίζει αλλά πως **κρατά στα χέρια του το προϊόν, πριν καν το αποκτήσει**.

* Επικοινωνήστε μαζί μας για να σας κατευθύνουμε για την παροχή και χρήση των φωτογραφιών 360°.

Επενδύοντας διαρκώς στο ανθρώπινο δυναμικό, η ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ στελεχώνεται από **καταρτισμένο προσωπικό**, με **υψηλή εξειδίκευση** (οικονομολόγους, γυμναστές, μηχανικούς, τεχνολόγους) και **πολυετή εμπειρία** στο αντικείμενο ενασχόλησής τους.

Στοχεύοντας πάντα στις σύγχρονες ανάγκες της εποχής και τις απαιτήσεις που έχουν σε πολυσιχιδείς γνώσεις, η εταιρεία, παράλληλα με τις επενδύσεις σε τεχνολογικά μέσα, εφαρμόζει συνεχές πρόγραμμα επιμόρφωσης του προσωπικού μέσω των εσωτερικών διαδικασιών εκπαίδευσης του Συστήματος Ποιότητας (ISO 9001:2015) και συμμετοχών σε επιμορφωτικά σεμινάρια τρίτων φορέων.

“ Δεν θα πρέπει απλώς να ακούμε τη φωνή των πελατών μας και δεν θα πρέπει να ανταποκρινόμαστε μόνο σε αυτή, αλλά θα πρέπει να κάνουμε και το κάτι παραπάνω, που θα κάνει τους πελάτες μας πραγματικά ευτυχισμένους. ”

από την εναρκτήρια ομιλία του Γ. Μουσταφέλου για το έτος 2012

Πελατο-Μανία!

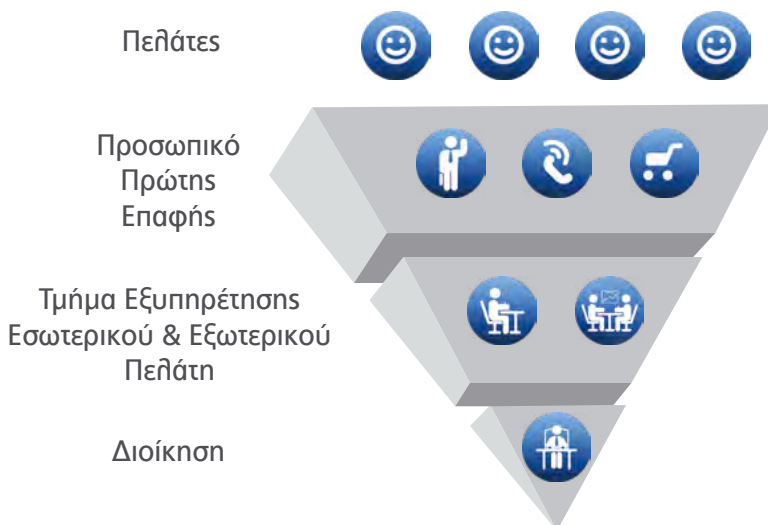

ΕΤΟΙΜΟΙ ΝΑ ΣΑΣ
ΕΞΥΠΗΡΕ-
ΤΗΣΟΥΜΕ

Νέα ριζική αλλαγή στον τρόπο που προσεγγίζουμε την συνεργασία μας με τους πελάτες μας Σύμβουλος Αγορών & "Πελατομανία"

Μέσα σε αυτά τα πλαίσια, σας παραδίνουμε το νέο ανανεωμένο μας κατάλογο που έχει φτιαχτεί πάνω σε μια διαφορετική φιλοσοφία. Αυτός ο κατάλογος φιλοδοξεί, κάποτε, να γίνει ένας πλήρης και σωστός **Σύμβουλος Αγορών**. Ο κύριος σκοπός του είναι να σας δίνει συμβουλές που αφορούν τις αγορές σας και τις πωλήσεις, και να βοηθά με τον τρόπο του στη δημιουργία για εσάς νέων ευκαιριών για αύξηση πωλήσεων. Οι απαντήσεις στις απορίες σας, καθώς και οι συμβουλές στην επιλογή των αγορών σας, θα ενσωματώνονται στις νέες βελτιωμένες εκδόσεις.

Οι Πελάτες μας στο Επίκεντρο της Προσοχής μας

Στην κορυφή της εταιρείας μας δεν είναι η διοίκηση αλλά οι **Πελάτες μας**. Το πραγματικό "αφεντικό"! Οι **Πελάτες** μας είναι αυτοί, που η συνεχής υποστήριξή τους εξασφαλίζει το παρόν και το μέλλον μας. Αντιλαμβανόμαστε πλήρως την ευθύνη μας σε όλους εσάς που μας **τιμήσατε με την επιλογή σας** και σας διαβεβαιώνουμε ότι θα κάνουμε τα πάντα για να ανταποκριθούμε σε αυτή την ευθύνη. Σαν αναγνώριση της υποστήριξής σας όλα αυτά τα χρόνια, με τον σημερινό **Κατάλογο - Σύμβουλο Αγορών** σας δίνουμε τη θέση που σας αξίζει και δεν είναι άλλη από την κορυφή της διοικητικής μας Πυραμίδας. Δεν είναι τυχαίο ότι δεύτεροι στη **Διοικητική Πυραμίδα** είναι οι εσωτερικοί μας πωλητές, είναι οι άνθρωποί μας που έρχονται σε καθημερινή επαφή μαζί σας. Κάνουμε τα πάντα και τους παρέχουμε ότι είναι δυνατόν ώστε να σας προσφέρουν κορυφαίες υπηρεσίες που αξίζετε.

Η οικογένεια της **ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. Α.Ε.Ε.**, παρότι μεγάλωσε αρκετά τα τελευταία χρόνια, εξακολουθεί να μην συγκαταλέγεται στις απρόσωπες εταιρείες. Και είμαστε υπερήφανοι γι' αυτό! Είναι συνειδητή επιλογή μας να σας παρουσιάζουμε κάθε χρόνο τα πρόσωπα των συναδέλφων - συνεργατών που είναι έτοιμα και εκπαιδευμένα να σας προσφέρουν την καλύτερη δυνατή εξυπηρέτηση.

Περνώντας και το τεσσαρακοστό έτος της λειτουργίας μας συνεχίζουμε να μαθαίνουμε και να επενδύουμε συνεχώς.

Ευχόμαστε υγεία και καλές δουλειές
Με εκτίμηση,
Γ. ΜΟΥΣΤΑΦΕΛΟΣ

1978

Ιδρύεται, από τους Χ. Μουσταφέηλο και Μ. Πινακουλάκη, η ELDICO ΕΠΕ ως πρώτη εταιρεία χονδρικής πώλησης ειδών camping με έδρα το Νέο Ψυχικό. Τα αρχικά της είναι παράγωγα των λέξεων hEllenic DIstribution COmpany.

1989

Έτος ορόσημο για την ELDICO. Μετακομίζει σε νέες μεγάλες αποθήκες 3.800m² στο Βοτανικό. Στο σημείο που βρίσκεται ως σήμερα.

1995

Δεύτερο έτος ορόσημο, κατά το οποίο το κτήριο περνά στην ιδιοκτησία της εταιρείας, ενώ παράλληλα η οικογένεια Μουσταφέηλου αγοράζει το μερίδιο του κ. Πινακουλάκη.

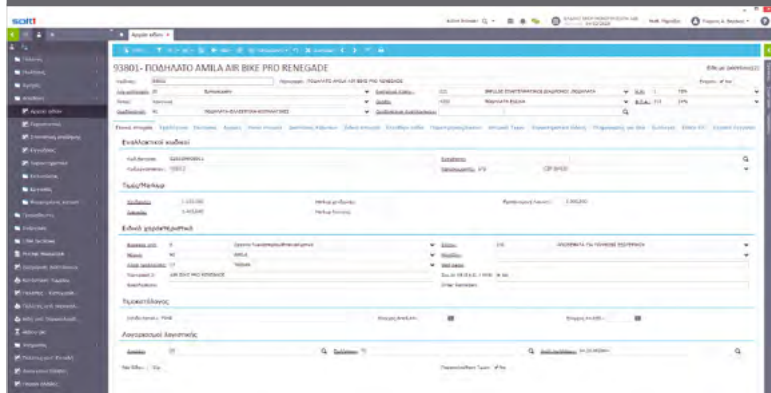

2000

Εισάγονται για πρώτη φορά έπιπλα εξωτερικού χώρου. Η εταιρεία αρχίζει να επενδύει σε ανθρώπινο δυναμικό, πληροφορικά συστήματα και εκσυγχρονισμό των εγκαταστάσεων.

2008

Αλλάζει το λογιστικό και εμπορικό πρόγραμμα της εταιρείας σε ERP. Η εξυπηρέτηση και η παραγγελιοληψία γίνονται ακόμα πιο ευέλικτες. Παράλληλα αλλάζει και η οργανωτική δομή της ELDICO ΣΠΟΡ ΑΕΕ.

45 Χρόνια Ιστορίας

Η ELDICO ΣΠΟΡ ΜΟΝ. ΑΕΕ στο πέρασμα του χρόνου

1981

Η εταιρεία μεταφέρεται στα νέα μεγάλα γραφεία στους Αμπελόκηπους με τα νέα της ονόματα: NEW ELDICO ΕΠΕ & ELDICO CAMPING.

1990

Η γκάμα των προϊόντων μεγαλώνει σημαντικά. Προστίθενται αθλητικά και είδη θαλάσσης, παίρνοντας, πλέον, την ονομασία ELDICO ΣΠΟΡ ΑΕΕ.

1998

Μια πολύ σημαντική στρατηγική πολιτική της εταιρείας πραγματοποιείται. Η ELDICO ΣΠΟΡ ΑΕΕ εισέρχεται στον χώρο των οργάνων γυμναστικής.

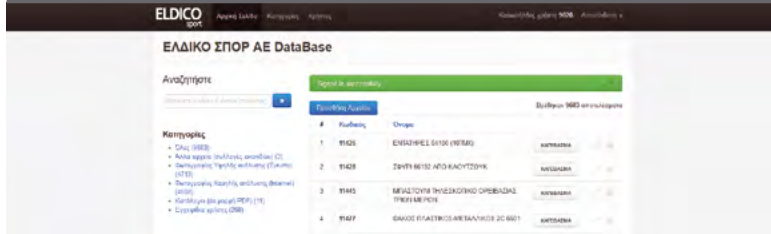

2007

Εκπληρώνεται ένα μεγάλο όνειρο. Η ELDICO ΣΠΟΡ ΑΕΕ επενδύει στη βόρεια Ελλάδα κατασκευάζοντας ένα κτήριο 3.200m² στην περιοχή της Σίνδου Θεσσαλονίκης. Οι ακόμα πιο έγκαιρες και οικονομικότερες αποστολές γίνονται πραγματικότητα.

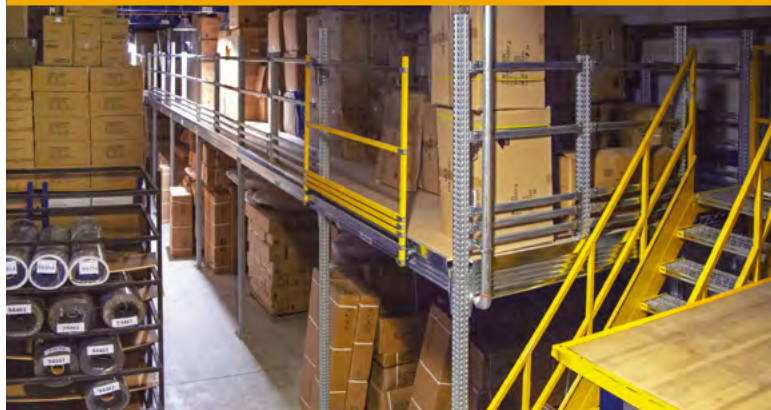

2012

Πραγματοποιούνται νέες μεγάλες επενδύσεις σε στόλο και εξοπλισμό. Δημιουργείται το eldico-pic.gr για την άμεση αποστολή φωτογραφιών και προσπέκτους.

2019

Νέα επέκταση αποθηκευτικού χώρου στις εγκαταστάσεις της Θεσσαλονίκης δημιουργεί διαθέσιμο 4.000m², αυξάνοντας τον συνολικό αποθηκευτικό χώρο της εταιρίας πλέον των 8.000m².

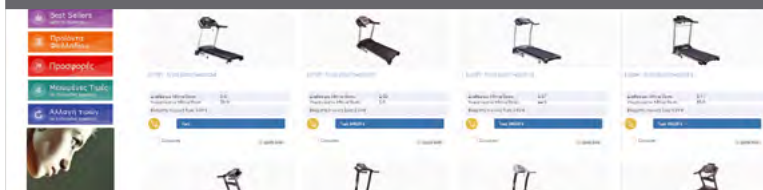

2011

Η ΕΛΔΙΚΟ ΣΠΟΡ ΑΕΕ πιστοποιεί την ποιότητα των υπηρεσιών της, προσθέτοντας στα ήδη υπάρχοντα συμφωνητικά με την Ελληνική Εταιρεία Αξιοποίησης Ανακύκλωσης ΑΕ και την εταιρία Ανακύκλωσης Συσκευών ΑΕ, το Πρότυπο ISO 9001:2000.

2013

Δημιουργείται ο δικτυακός χώρος B2B που δίνει OnLine πληροφόρηση σε όλους τους συνεργάτες.

2020

Η εταιρία μετονομάζεται. Η νέα της επωνυμία είναι ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝΟΠΡΟΣΩΠΗ Α.Ε.Ε. Η οροφή του κεντρικού κτηρίου οικοδομείται, προσφέροντας επιπλέον προστασία στα προϊόντα. Παράλληλα διαμορφώνονται νέοι λειτουργικοί χώροι έκθεσης και συνομιλίας.

eldico-b2b.gr Η νέα on-line εποχή έφτασε!

Δεν πρόκειται για μια απλή on-line υπηρεσία. Η νέα πλατφόρμα της ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ σχεδιάστηκε από την αρχή, όχι για να προστεθεί απλά στις υπάρχουσες δομές αλλά για να αλλάξει εξολοκλήρου τον τρόπο με τον οποίο γινόντουσαν όλες οι ηλεκτρονικές συναλλαγές μέχρι σήμερα.

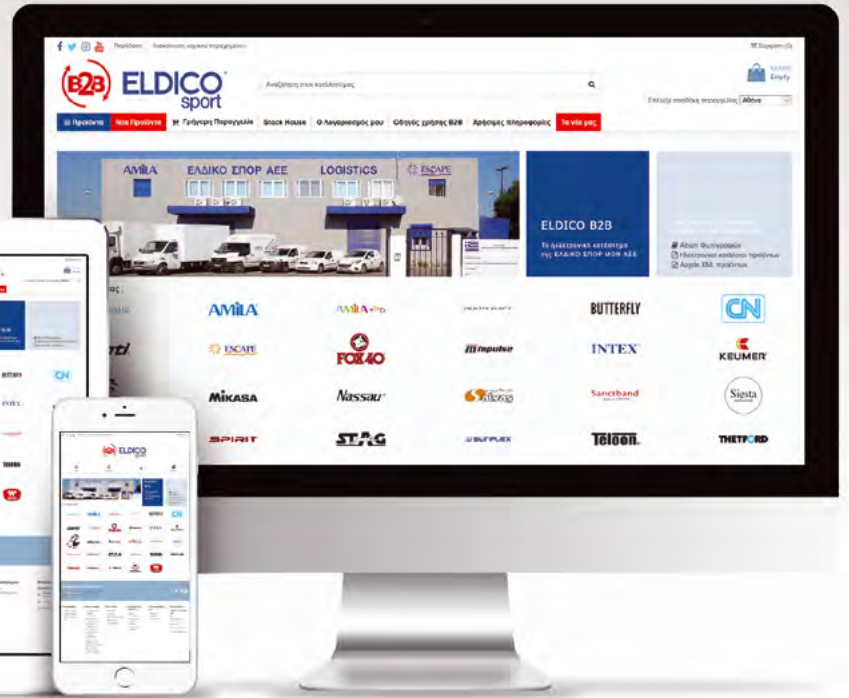

STAY TUNED!

Το 2020 ήταν η χρονιά μετάβασης στις νέες on-line B2B υπηρεσίες μας. Μια μόνο πλατφόρμα ενοποιεί πλέον σιδηπότε μέχρι σήμερα υπάρχει σε ξεχωριστές σελίδες, σχεδιασμένη για να εξυπηρετεί κάθε ανάγκη με τον πιο λειτουργικό τρόπο. Μείνετε όμως συντονισμένοι: Η νέα B2C σελίδα καταφθάνει κι αυτή!

eldico-b2b.gr

Το 2013 δημιουργήσαμε την πρωτοποριακή διαδικτυακή υπηρεσία B2B (Business to Business) η οποία είναι συνδεδεμένη on-line με το εμπορικό πρόγραμμα της επιχείρησης προσφέροντας έγκυρη, άμεση και γρήγορη πληροφόρηση οποιαδήποτε στιγμή κι αν την χρειαστεί ο χρήστης.

Η πλατφόρμα B2B της ΕΛΔΙΚΟ έχει σχεδιαστεί έχοντας κατά νου τον πελάτη και τις σύγχρονες ανάγκες του.

Μέσα από την πλατφόρμα B2B ο χρήστης μπορεί να δει τα προϊόντα της ΕΛΔΙΚΟ, να ενημερωθεί για ό,τι νέο υπάρχει και όλα όσα αναμένονται σύντομα. Ταυτόχρονα υπάρχει η δυνατότητα να

ελέγξει **Best Sellers, Προϊόντα Φυλλοαδίου** με όσα περιέχονται στα τρέχοντα προωθητικά έντυπα που εκδίδονται από την εταιρεία. Στο B2B, επίσης, βρίσκονται διαθέσιμες οι **Προσφορές, τα Προϊόντα με Μειωμένες Τιμές και καρτέλες που περιέχουν είδη με μεταβλητή τιμή.** Η πλατφόρμα B2B είναι ένα «ζωντανό» cloud application το οποίο αναβαθμίζεται

και γίνεται καλύτερο μέρα με τη μέρα. Αυτό επιτυγχάνεται ακόμα γρηγορότερα εαν εσείς, οι συνεργάτες μας, μας στέλνετε feedback με απορίες, προτάσεις και παρατηρήσεις.

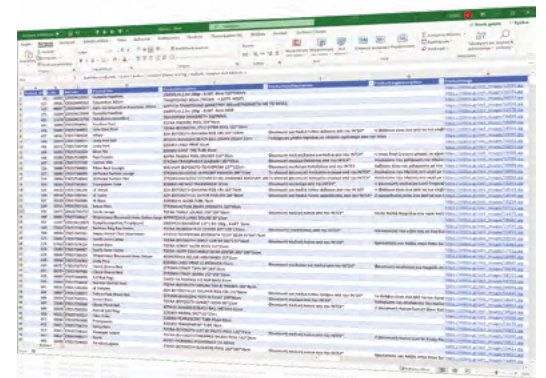

on-line οδηγός χρήσης:
eldico-b2b.gr/content/18-usage_manual

XML

Οι σύγχρονες ανάγκες για ακόμα πιο γρήγορη καταχώρηση δεδομένων, αλλά και για άμεση και αδιάκοπη ενημέρωση τιμών, διαθεσιμότητας (στις 2 αποθήκες ξεχωριστά), φωτογραφιών και 22 ακόμα στοιχείων, δημιούργησε την υπηρεσία XML.

Μην παραλείψετε να συγχρονίσετε το XML της ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ με το e-shop σας, για να έχετε την ταχύτερη και πιο έγκυρη πληροφόρηση όλων όσων σας ενδιαφέρουν. Το XML είναι πολύτιμος συνεργάτης και για όσους δεν διαθέτουν ηλεκτρονικό κατάστημα (e-shop). Οι πληροφορίες του μπορούν να σας χρησιμεύσουν σχεδόν σε όλες τις συναλλαγές σας. Απευθυνθείτε στον σύμβουλο αγορών που σας εξυπηρετεί και ζητήστε του το XML link σας.

Δείτε ένα σύντομο οδηγό της on-line υπηρεσίας στη διεύθυνση: eldico.gr/xml

AMILA.GR

OnLine Υπηρεσίες

XML: Το 2017 προσθέσαμε, στις ήδη υπάρχουσες ηλεκτρονικές υπηρεσίες (B2B, eldico-pic.gr, dropbox κ.λπ.), τη λίστα XML κάνοντας ακόμα πιο εύκολη την καταχώρηση δεδομένων.

eldico.gr: Σκοπός του ολοκαίνουριου κεντρικού site είναι η **σταδιακή ενοποίηση όλων των on-line υπηρεσιών** που σας παρέχουμε (καταλόγους, οδηγιών χρήσης, εικόνων, xml), έτσι ώστε να γίνει πιο φιλική η χρήση τους. Επιπλέον να προωθηθούν και κεντρικά (κοινωνικά δίκτυα, έντυπο και ηλεκτρονικό τύπο) τα προϊόντα που προσφέρετε και, έτσι, να διευκολύνουν τις πωλήσεις σας.

Αναγνωρισιμότητα, Ανταπόκριση, Παρουσίαση, Προώθηση, Πώληση!

Κανάλι: youtube.com/@eldico-sport

Η ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ ανταποκρινόμενη στις συνεχώς αυξανόμενες ανάγκες ενός σύγχρονου επιχειρηματικού περιβάλλοντος, βελτιώνει διαρκώς τις υπηρεσίες της, εκπέμποντας μέσα από το δικό της **κανάλι** στο eldico.gr/youtube

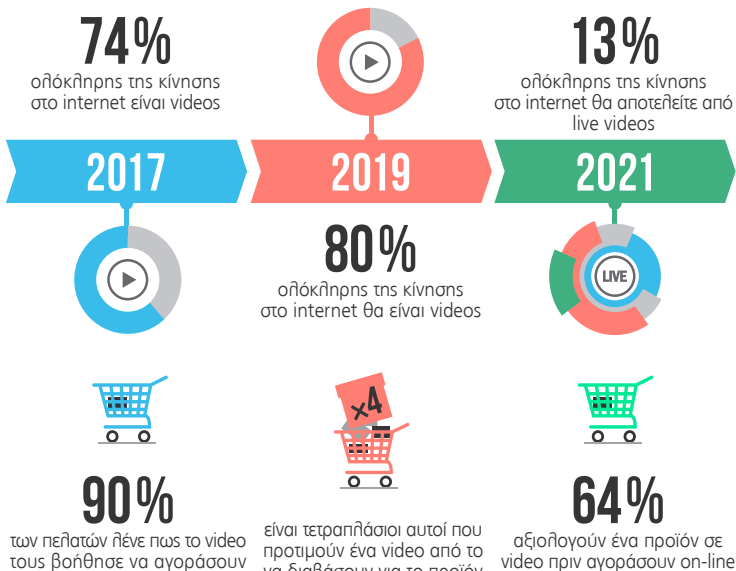

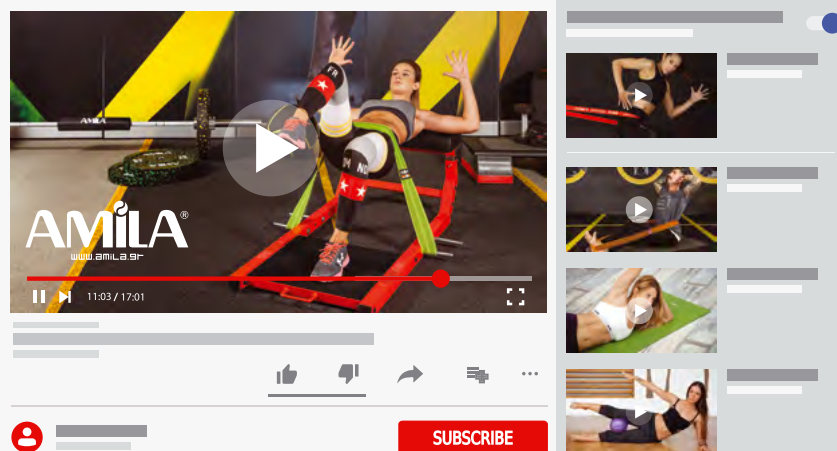

Αυξήστε τις πωλήσεις σας με Video Marketing

Το YouTube δημιουργήθηκε το 2005. Ένα μόλις χρόνο μετά ονομάστηκε "η εφεύρεση της χρονιάς" από το περιοδικό Times. Σύμφωνα με την Έρευνα Κοινωνικής Δικτύωσης 2013-14 του Οικονομικού Πανεπιστημίου Αθηνών και του ELTRUN το **YouTube είναι πρώτο από όλα τα Social Media. Οι επιχειρήσεις βρίσκουν συνεχώς ολοένα και περισσότερους τρόπους για να χρησιμοποιήσουν τα videos ώστε να προσεγγίσουν τους πελάτες τους.**

Το Video Marketing με αριθμούς

Σύμφωνα με έρευνα του Ascend2 (Research-Based Marketing) για το 2015, **τα videos αυξάνουν:**
κατά 47% την αναγνωρισιμότητα (brand awareness)
κατά 45% τη αλληλεπίδραση των ακολούθων σας (engagement)
κατά 43% την ενημέρωση των πελατών
κατά 41% τις ενέργειες
κατά 34% το ποσοστό ανταπόκρισης (conversion rate)
κατά 26% τα έσοδα από πωλήσεις

Για να **μείετε** στο κανάλι της ΕΛΔΙΚΟ ΣΠΟΡ ΜΟΝ. ΑΕΕ, πληκτρολογήστε στη γραμμή διευθύνσεων: youtube.com/@eldico-sport

Για να διαλέξετε **συγκεκριμένο φάκελο με videos** επιλέξτε από το menu το "PLAYLISTS".

Μην ξεχάσεις να κάνεις **SUBSCRIBE (ΕΓΓΡΑΦΗ)** στο κανάλι **ELDICO SPORT SA** για να μαθαίνεις πρώτος τα νέα videos και να τα προωθείς, μέσω των δικών σου καναλιών ή του eShop σου, **αυξάνοντας τις πωλήσεις σου!**

Τι περιμένεις; Ξεκίνησε Τώρα!

Το 85% των εταιρειών δηλώνει ότι το video marketing είχε επιτυχία για την επιχείρησή τους.

Εμπλουτίστε τη σελίδα ή το eShop σας με τα videos από το κανάλι της ΕΛΔΙΚΟ και βοηθήστε τις πωλήσεις σας όσο τίποτε.

Basket Balls

Basket balls have three distinct quality points according to the materials used for the **inner part**, **outer surface** and the **bladder**

Industrial Latex

[with 30% to 70% of Butyl Bladder added to its composition]

Butyl is a non-porous industrial product. It offers great air tightness, but it costs more. Bladders consisting of 30% Butyl can withhold the air up to 3 months, while bladders of 70% Butyl even up to 5 months.

Natural Latex

Natural latex bladders are porous and some air escapes over time. Their price is low, but the ones with a high percentage of latex lose a significant amount of air in 7-10 days.

Bladder [3]

Inner Part [2] [3]

Special Substrate [2]

Special spongy rubber substrate providing extremely smooth feeling and handling.

Winding [3]

The winding is performed around the bladder. It is a thread that is wound around it. The thread is a combination of polyester and nylon. It is not possible to use only one material, because the outcome will not be the desired one.

Depending on the quality, we have the following two categories:

- 2 Nylon layers + 1 Polyester
The best quality, offering great durability.
- 1 Nylon layer + 2 Polyester

Outer Surface [1]

PU Microfiber

[Indoor]

- Only for wooden flooring.

+ Great Control

+ Great Feel

+ Playability

- Low Stress Resistance

- Price

2 nylon, 1 polyester
70% butyl bladder

PVC

[Outdoor]

- Suitable for outdoor use.

+ Great Resistance to Stress over Time

+ Very Nice Price

- Feel

- Control

- Playability

High Quality PU

[Indoor]

- Only for wooden flooring.

+ Very Good Control

+ Nice Feel

+ Playability

- Not suitable for Official Matches

- Low Stress Resistance

2 nylon, 1 polyester
70% butyl bladder

High Quality PVC

[Indoor/Outdoor]

- Not recommended for people who prioritize playability and feel.

+ Good Control

+ Good Feel

+ Acceptable Playability

+ Adequate Resistance to Stress over Time

- Not suitable for Official Matches

2 nylon, 1 polyester
70% butyl bladder

Standard Rubber

[Outdoor]

- With or Without EVA.

+ Very Low Price

- Limited Resistance over Time

- Playability

1 nylon, 2 polyester
30% butyl bladder

High Quality Rubber

[Outdoor]

- With or Without EVA.

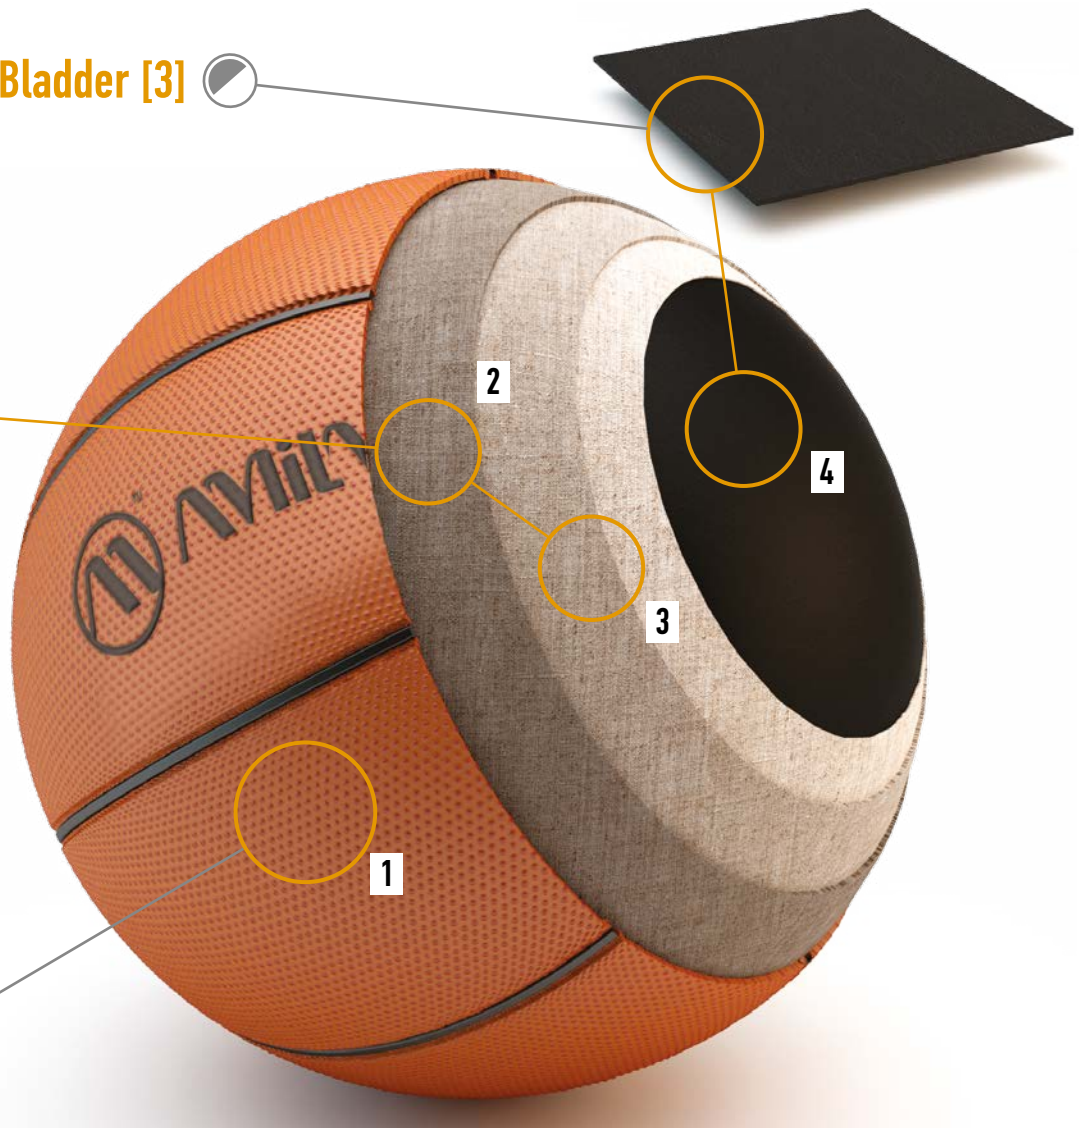

+ Great Resistance to Stress over Time

+ Competitive Price

+ Feel/Softness [especially for the EVA balls]

+ Control

2 nylon, 1 polyester
70% butyl bladder

Basketball Hoops

The quality of the backboard is crucial to the quality of the set

Bounce
The material of the backboard is directly related to its rigidity and, therefore, with its quality with reference to the bounce and return of the ball

Tempered Glass

- Top choice
- Best bounce
- Great sound
- Commercial feel

Acrylic

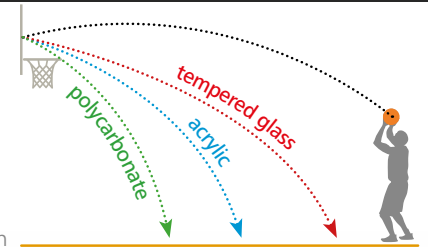

- Great material
- Correct bounce
- Correct sound
- Commercial feel

Polycarbonate

- Good material
- Not expensive
- Great durability
- Even a thickness of 2mm is enough to withstand most hardship
- Suitable for lightweight construction

Thickness

Commercial backboards have a thickness of 15mm and are used only in permanent structures. **The 8mm thickness is used in movable hoops.**

Football Balls

Football balls have changed in recent years, both in terms of the materials used and in terms of their construction, changing the standards of flight characteristics, sphericity and durability.

How is a football made?

Panels [1], [2]

Panels are the parts of the ball's outer material that are cut to fit together. There has been a dominant panel structure for many years, that of 32 pieces. In recent years, both with the development of technology and the change of modern aesthetics, manufacturers are changing the classic structure, implementing a different number of panels. The number of panels and how they are correctly cut and joined also helps the ball's sphericity. We can now find balls with just 12 panels.

Outer Surface Materials [1], [2]

In their original version, footballs were made of real leather, which made them quite heavy. Today soccer balls are mainly made from 3 materials: **PU, TPU and PVC.**

PU (Polyurethane)

It is the best modern material choice, making the ball softer and offering players better control. Not all PUs are the same. The top PU is currently produced in Japan, while at the same time the quality from China is constantly improving, offering a very good result.

TPU (Thermoplastic Polyurethane)

Material not as expensive as PU, but offering good options for training balls.

PVC (Polyvinyl chloride)

This material is used in the lower quality balls. It is a light material, making the ball more difficult to control.

Joining or "Sewing" the Panels

Sewing is the last stage of making a ball. It is one of its most important stages, as it can determine its strength and sphericity. In the past, the higher quality balls were sewed by hand, offering very high quality and durability. Over the years and new technologies, there are now 4 ways to "sew" a ball: **Hand sewn, Machine sewn, Hybrid and Thermobonded.**

Hand Sewn

Very few balls are made this way anymore. The lack of skilled personnel, as well as high costs, makes this choice more difficult.

Machine Sewn

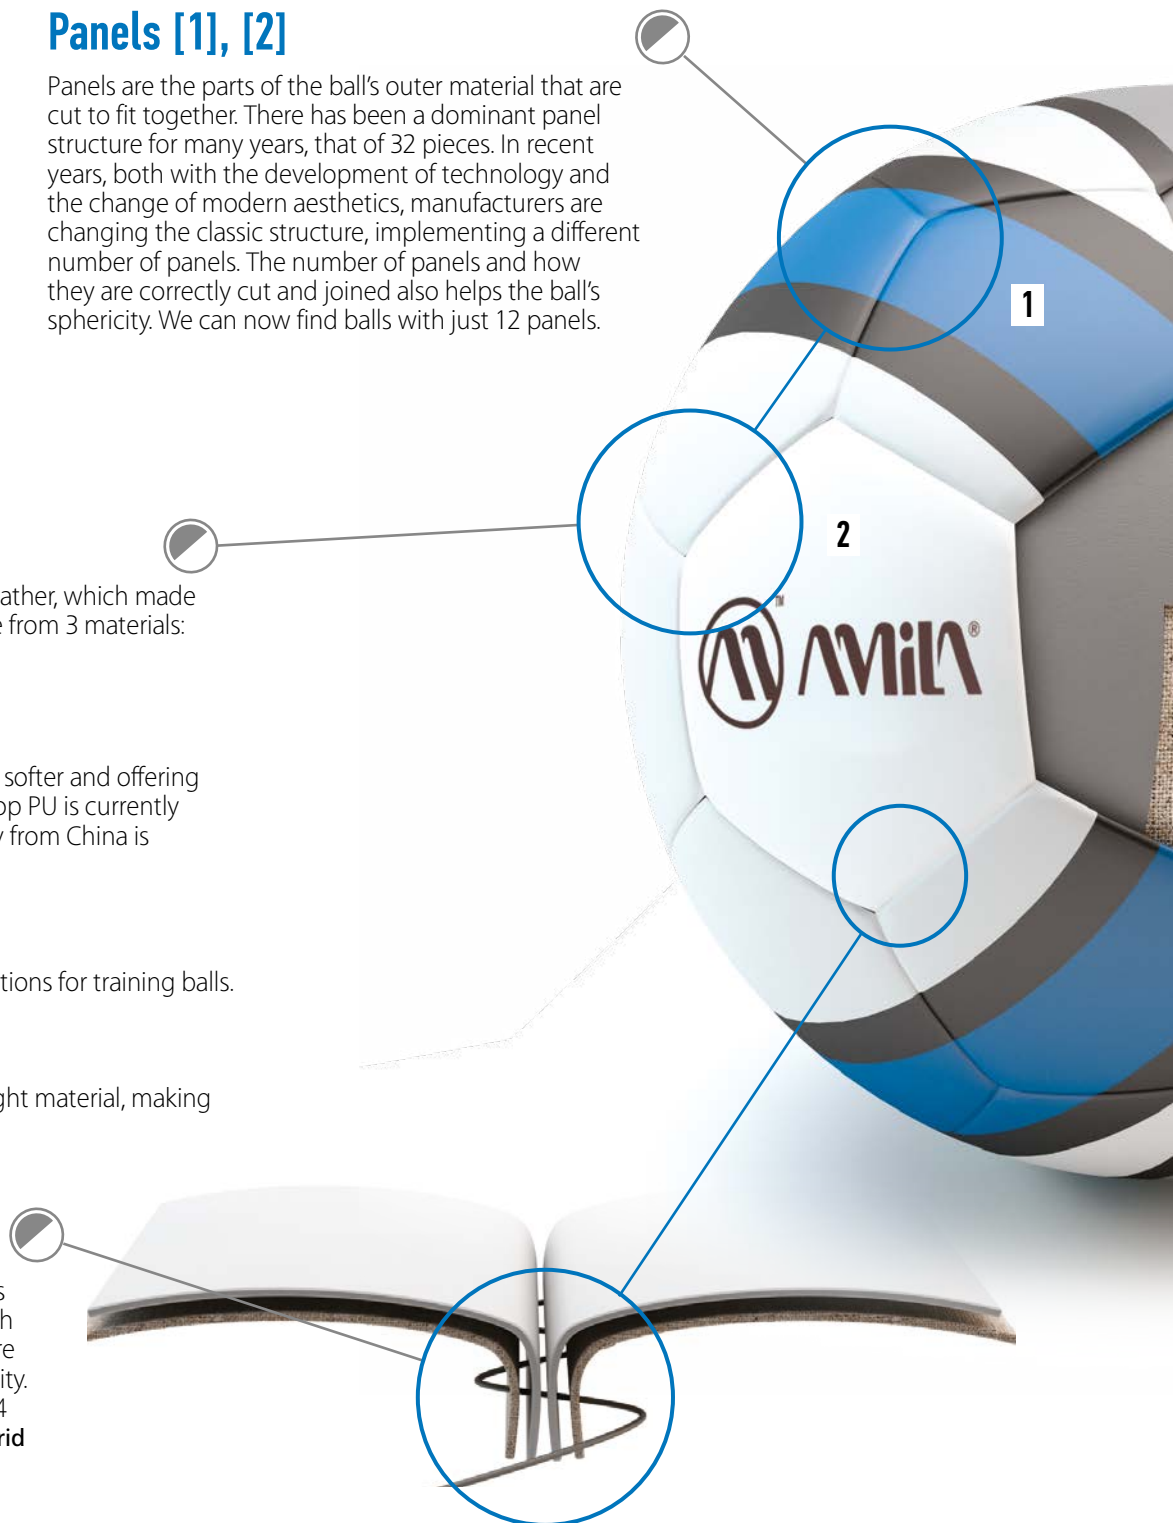

Most cheap balls are made this way. Machines are unable to sew balls that have a thick outer material. However, this does not mean that certain balls are not of sufficient durability.

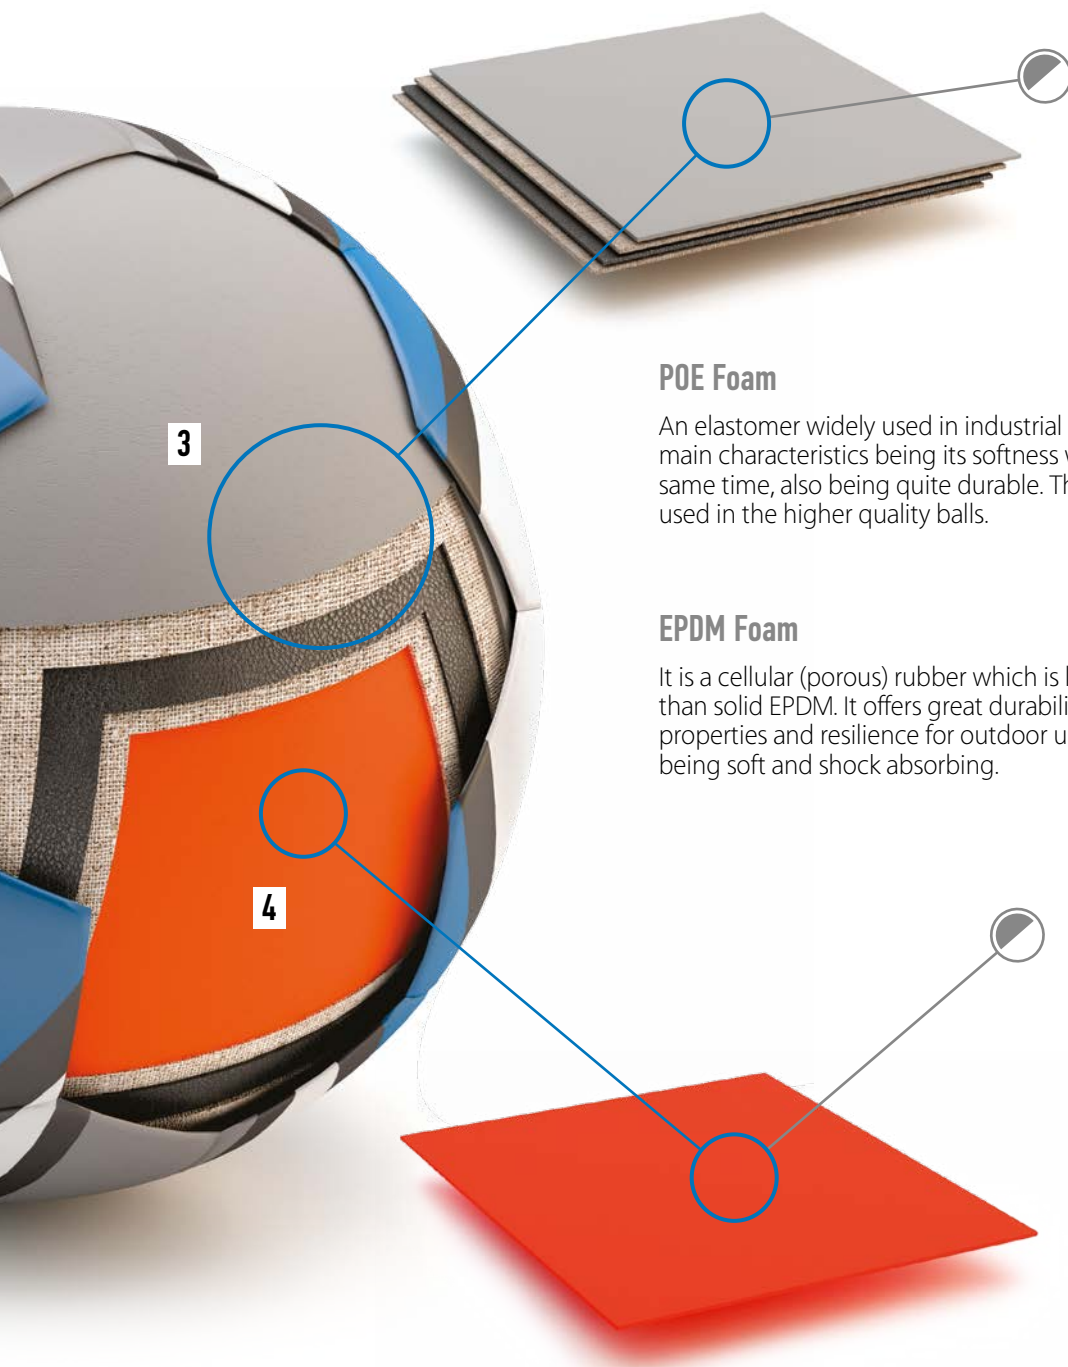

Hybrid

This technology combines machine stitching (using special machines), and then covering the seams with a special material, sealing the inner part and protecting the ball.

Thermobonded

The "Thermo" balls, as they are called, are the top balls in our day. With the help of high temperature, the panels are stuck together. These balls have no seams and thus have maximum resistance in rainy weather conditions. Finally, due to their high-precision spherical shape, they offer a more stable flying experience.

Inner Layer | Lining [3]

Inside the outer part of the ball and between the bladder and the outer surface one can find materials such as **POE, LPOE, TPE** and **EPDM** foam and **Polyester** fabrics.

Their structure and composition is not fixed and varies between balls, while a single ball may be made from only one or a combination of materials.

POE Foam

An elastomer widely used in industrial processes, its main characteristics being its softness while, at the same time, also being quite durable. This material is used in the higher quality balls.

TPE Foam

TPE is a thermoplastic elastomer, combining all the useful characteristics of plastics and rubber, the main being high durability, softness, flexibility and non-absorption of water.

EPDM Foam

It is a cellular (porous) rubber which is lighter than solid EPDM. It offers great durability, with UV properties and resilience for outdoor use, while still being soft and shock absorbing.

Ύφασμα Polyester (Πολυεστέρας)

Polyester is one of the most well-known synthetic fabrics, which is comprised from uniform, durable and elastic fibers, thus increasing the durability of the ball.

Bladder [4]

Its role is to keep the air inside the ball, giving it its round shape. The materials used are 2, **Butyl** and **Latex**.

Butyl

It is a type of synthetic rubber. Butyl bladders keep air longer, making the balls more suitable for hard ground.

Latex

A natural material derived from rubber. It is soft and suitable for playing on grass. It does not keep the air as well as butyl bladders and needs to be inflated more often.

FIFA® Certifications

FIFA®

BASIC

It is the lowest certification level, checking the most fundamental safety, performance, quality and durability specifications. It is the cheapest certificate and mostly used for the most "Budget Friendly" balls.

FIFA®

QUALITY

This certification is more strict and demanding, emphasising more on safety and durability. Furthermore, it incorporates the basic inspections on performance and accuracy. Each certified ball costs more, since part of the certificate cost goes to FIFA.

FIFA®

QUALITY PRO

This is the top and most demanding FIFA certification. The inspections are more thorough, so as to ensure that the ball is of the ideal quality, providing the required durability, safety and performance. Each of these balls is of the highest quality and most expensive, since the certificate cost and part of the selling price goes to FIFA.

What kind of tests are being carried out?

The test carried out on a ball to get a FIFA certification concern its weight, size, whether it retains its shape after strong kicks, the bounce and whether the pressure drop is within the permissible limit.

Must a ball have be certified to be good enough?

Balls do not have to be certified to be good balls. You can find plenty of very high-quality balls without any FIFA certification. However, when you buy a certified ball, you can be certain that it complies to the federation's specifications.

Volley Balls

Volley was invented in **1895** by the American physical education director **William Morgan** at the Holyoke YMCA. While trying to invent a game for older gentlemen to play, something not too strenuous, he invented **Volleyball**, originally called "**Mintonette**".

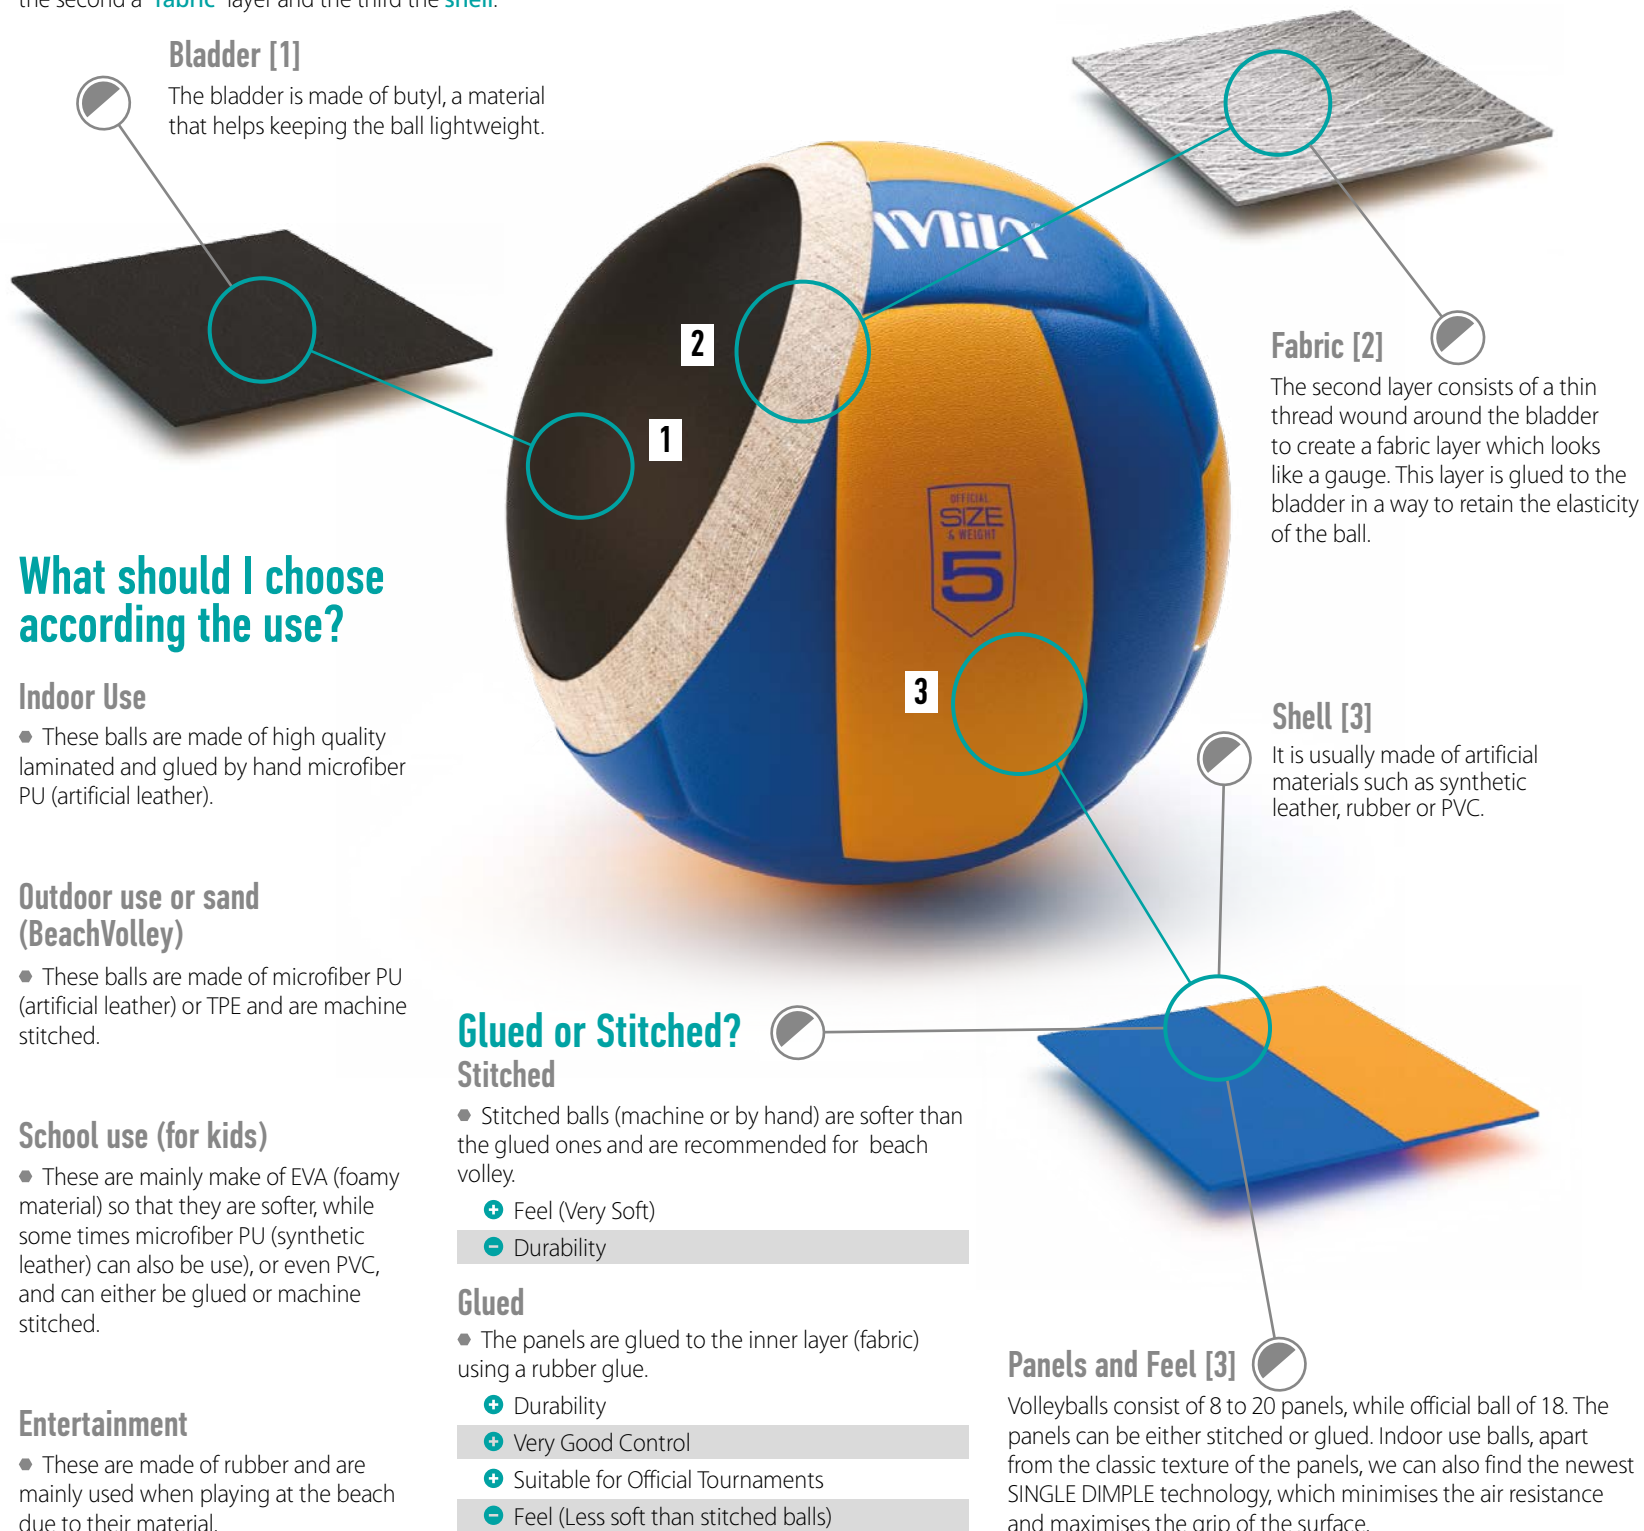

Ball Types

Balls are split in 4 basic categories according to their use:

- Indoor use
- Beach Volley (outdoor or sand use)
- Entertainment
- Designed for kids and school use (indoor and outdoor)

Ball Composition

A volleyball comprises of three main construction layers, the first being a rubber **bladder**, the second a "**fabric**" layer and the third the **shell**.

What should I choose according the use?

Indoor Use

- These balls are made of high quality laminated and glued by hand microfiber PU (artificial leather).

Outdoor use or sand (BeachVolley)

- These balls are made of microfiber PU (artificial leather) or TPE and are machine stitched.

School use (for kids)

- These are mainly make of EVA (foamy material) so that they are softer, while some times microfiber PU (synthetic leather) can also be use), or even PVC, and can either be glued or machine stitched.

Entertainment

- These are made of rubber and are mainly used when playing at the beach due to their material.

Tennis Rackets

The interaction of the frame, strings, grip and construction material affect the stroke accuracy, the speed of the ball and the absorption of shocks.

Grommets

Special rings inserted into the frame, protecting both the frame and the strings from wear and tear. Bigger or wider grommets provide a little more power, while smaller ones provide more control

Size of the Handle

It is usually written on the butt. There is a slight confusion about sizes, since it is measured in a different way in Europe than in the USA.

In Europe, a range of 0 to 5 is used, whereas in the USA a range between 4 and 4 5/8 inches. For example, if you see an American size of 4 1/4, change the the fraction by doubling the nominator and denominator, that is to 2/8, and the new nominator will be the size of the handle in the European scale.

If your racket has an overgrip, it will affect the actual size of the handle, thus making the written size not correct any more.

mm	inches	Handle Size
100-102	4	0
103-105	4 1/8	1
106-108	4 2/8 [4 1/4]	2
109-111	4 3/8	3
112-114	4 4/8 [4 1/2]	4
115-117	4 5/8	5

Racket Size

It is the distance from the top of the handle to the top of the head and is measured in inches. Although not mandatory, the height of the player should be considered when choosing the racket size.

Vibration Absorption System

An innovative control system with an extremely durable carbon bridge placed horizontally in the middle of the shaft, effectively decreases the vibrations, especially those transmitted from the frame to the grip.

The system gives the player the ability to achieve ideal control.

Head Size

The size of the head defines the area of covered by the strings, expressed in square centimeters or inches. A square inch amounts to about 6,45cm². The larger the head, the more strength can be produced, while decreasing the control over your racket.

Professional players usually choose rackets with smaller head, in order to achieve greater control.

Beginners are advised to choose a racket with a larger head for a more comfortable game.

Shock Absorption Vibration dampeners

The vibration dampener on the lower part of the strings mutes the feel of the stroke, meaning you feel less impact, and mutes the sound of mis-hits.

Box Shaped Profile

The square profile improves the stability of the structure, making it sturdier, allowing the strings to move more freely and, therefore, generating additional power.

Beam

The beam of a tennis racket refers to its side, which may be thicker or thinner depending on the type of tennis racket. Power rackets will tend to have a wider beam, which increases the stiffness and generating additional power. On the other hand, control rackets typically have smaller beams, which makes for a more flexible frame resulting in added control.

Active Shock Dampening System

An innovative raised contour axle technology proven to effectively reduce vibration and improve control. It also minimizes muscle fatigue during long matches, providing a comfortable feel when hitting the ball, while protecting the wrist, forearm and elbow from shock.

Aerodynamics

The principle of aerodynamics tells us that octagons, hexagons and curved objects experience less air resistance than other shapes that have a larger surface area in contact with the air. Therefore, their speed is much faster.

Tennis Balls

Ball Composition

A Tennis balls is comprised by two layers. The first is the **core**, made of rubber, containing compressed air, and the second layer is the **shell** which comprises of a felt layer.

Shell [2]

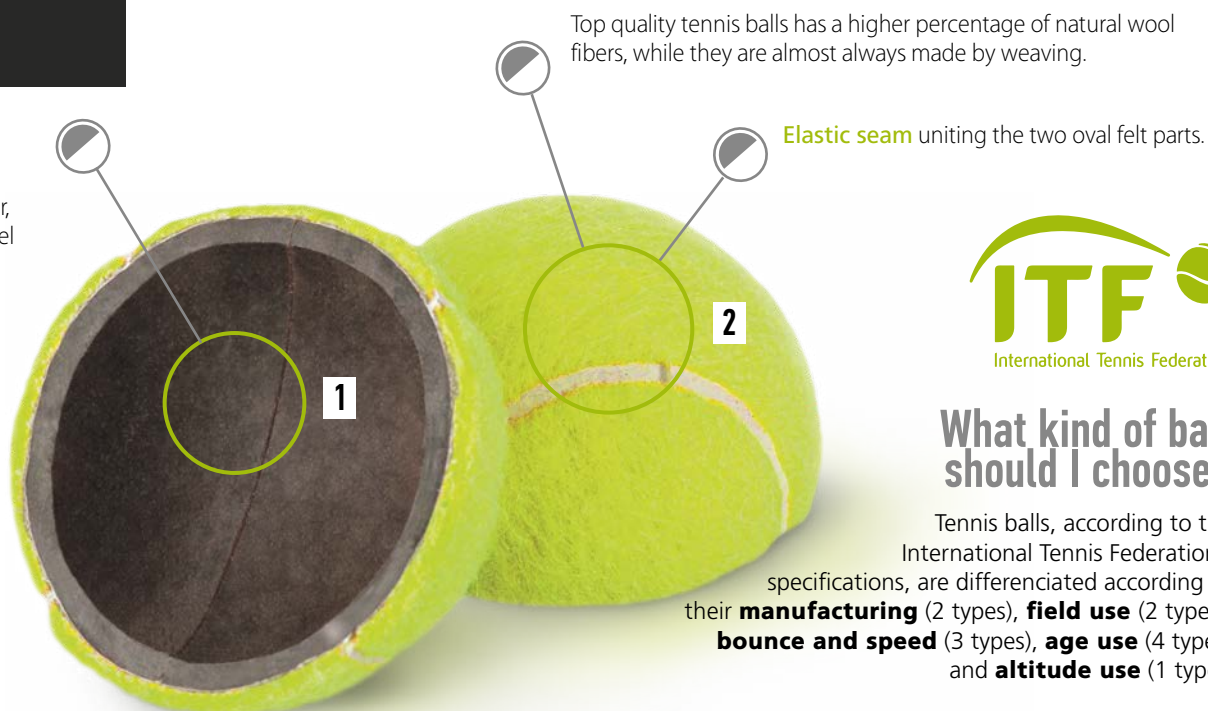

The Shell comprises of a Felt layer of an approximate thickness of 3mm, representing 20% of the ball's weight. Most tennis balls are comprised of a mixture of natural wool and synthetic nylon fibers.

Core [1]

The majority of tennis balls have a shell made either of natural or synthetic rubber, which is thinned by being pressed by steel cylinders and then heated and cut to the desired shape.

Afterwards, these parts are formed in order to form a sphere with a thickness of approximately 4mm. Next, they are polymerized, rubbed and the two half spheres are glued together. During this construction stage the ball is filled with compressed air.

Most tennis balls containe compressed air. There is no strict rule on the level of this pressure. However a pressure between 0,83 bar and 0,97 bar (or 12 and 14 PSI) is used.

What kind of ball should I choose?

Tennis balls, according to the International Tennis Federation's specifications, are differentiated according to their **manufacturing** (2 types), **field use** (2 types), **bounce and speed** (3 types), **age use** (4 types) and **altitude use** (1 type).

According to Type of Court

Depending on the type of court they will be used:

All Court

All Court balls are used on hard surfaces. Sometimes, these balls have thicker felt in order to be more durable.

Clay Court

Clay Court balls are designed to perform their best when used on dirt. In order to have the needed durability and performance on these courts, special technologies have been employed on their construction.

According to Manufacturing

There are two types, Compressed Air and Pressureless.

Compressed Air

They are the most widely used type of ball of athletes seeking the best performance. They are comprised by a rubber core filled with compressed air and shell made of felt, wool or synthetic. They are distinguished by their high speed and excellent bounce.

Pressureless

Pressureless balls are more durable over time since they do not contain pressurised air and therefore do not lose it over time, utilizing a much thicker core, but their speed and bounce characteristics are not as good as the pressu.

According to Speed and Bounce

These types are actually according to the type of court they are used:

Type 1

For "quick" surfaces such as grass, with a rebound of 138-151cm

Type 2

The so called "classic" balls, designed for normal-speed court surfaces like cement with a rebound of 135-147cm

Type 3

Designed for low-speed surfaces such as dirt with a rebound of 135-147cm

According to Age

Age	Stage	Diameter	Color
lower than 8	3	7,5 cm	Red
8 to 9	2	6,0 - 6,8 cm	Orange
9 to 10	1	6,54 - 6,86 cm	Green
10 and above	Senior	6,54 - 6,86 cm	Yellow

According to Altitude

Balls in this category are designed to be used in courts at an altitude of 1.200m

1922, the beginning...

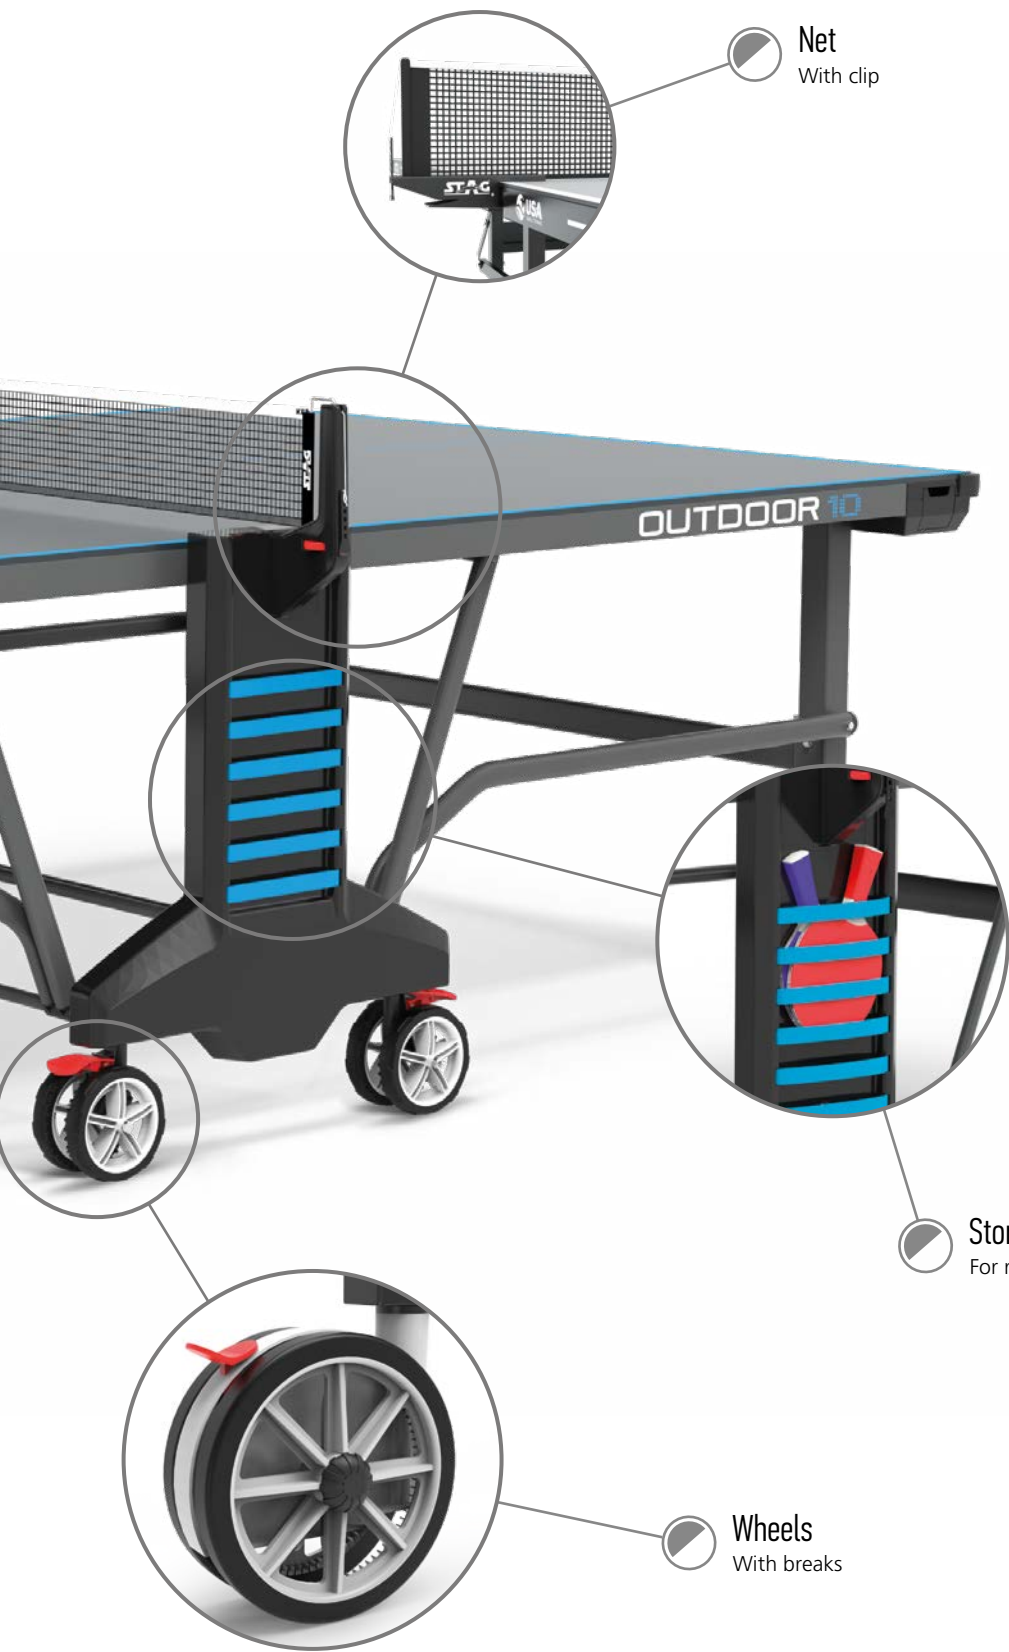

The beginning of STAG ping-pong tables was in 1922 by the great visionary Lala Arjan Das Kohli. Over the years, his descendants continued building and improving on the foundations he had laid, and now the fourth generation still has the same vision.

From a small family business to the top of the world

Stag has come a long way from the humble beginnings of a small family business to a renowned multi-sport brand catering to 202 countries the world over. Quality and customer satisfaction continue to remain our prime pursuit: "We do not sell products, we sell satisfaction". Over the years, we have formed long-lasting partnerships with people who share

our passion for sports. Stag is proud partner of the ITTF and Supplier Pool Member of ETTU, sponsors 36 national table tennis teams and was the official equipment sponsor for Youth Olympic Games 2018 and the title and equipment sponsor for the European under 21 Championships for the years 2017-2020.

DURING THE '80s, PING-PONG FOUND ITS WAY INTO THE GARDEN

From making its first ping-pong table until today, Cornilleau never stopped innovating, improving its products and creating new ones.

Continual improvement like never before

Innovation also means constantly improving our products. To ensure this ideal and remain at the forefront, more than 10% of its staff work on projects concerning innovation.

Cornilleau has been cooperating with the top French players since 1982 which, through their know-how, helped improve the quality of its products.

Ping-Pong Rackets

Ping-pong was invented in England at about 1870 as a leisure activity after lunch. It originates from tennis and is a racket sport.

Racket & its Composition

Players are equipped with a laminated wooden racket, covered with rubber on both sides. The International Table Tennis Federation (ITTF) uses the term **"racket"**, even though the term **"bat"** is pretty common in the UK, as is **"paddle"** in USA and Canada.

The racket consists of the **"Blade"**, the **"Handle"** and the **"Rubbers"**.

Blade [1]

The wooden part of a ping-pong racket is referred to as the **"blade"**. It consists of multiple layers of compressed wood and, sometimes, also included layers of carbon fiber, glass fiber, titanium, aluminum, etc. According to International Table Tennis Federation (ITTF) regulations, at least 85% of the blade must be made of natural wood.

Blades consist of a flat area called **"paddle"** for hitting the ball and a handle to hold it. The weight and the materials affect the desired playing style. Therefore, by changing the blade, players can change the power and ball control levels.

Blade Features

Speed

The blade speed ratings range from the faster offensive OFF+ to the slowest defensive DEF-. An all-around blade is rated as ALL. The higher the speed rating, the farther the ball bounce off the racket. Just keep in mind: the faster the blade, the more dexterity it needs!

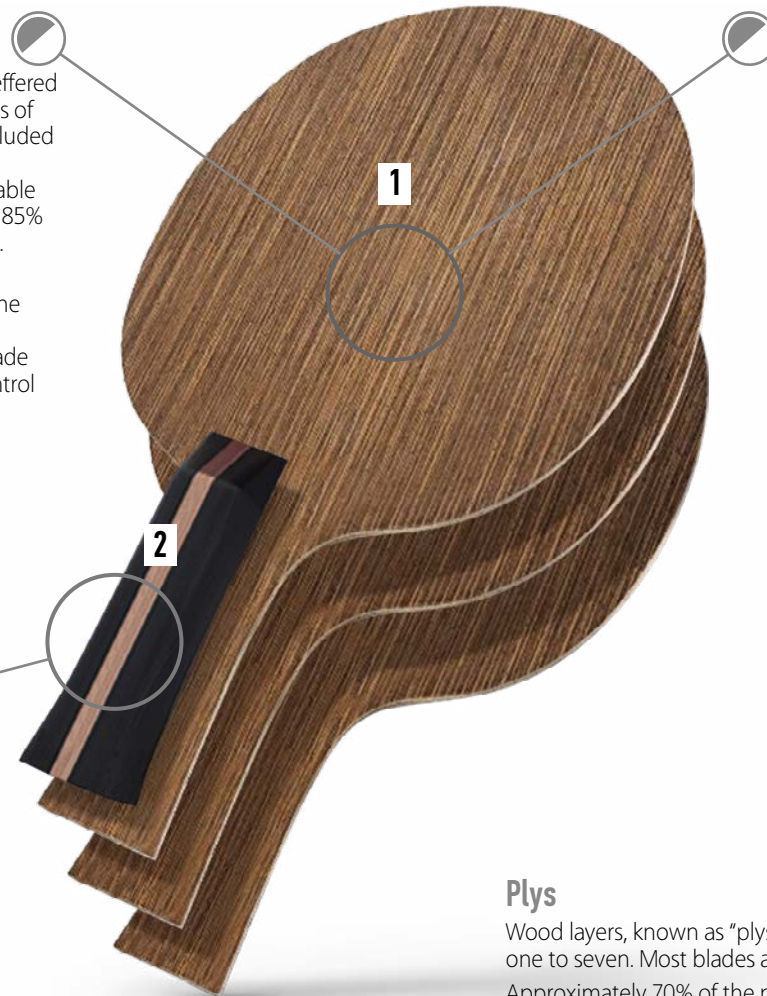

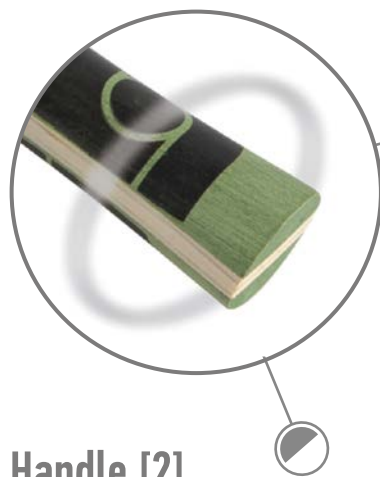

Weight

The ideal blade weight is subjective. Most blades weigh between 70-100 grams, without the subsequently added rubbers. Heavier blades are supposed to offer more power. However, some players prefer a lighter blade because it is faster. Note that power and speed are not dependent only on the blade, but on the skill and technique of the player.

Plys

Wood layers, known as **"plys"**, make up the blade and usually range from one to seven. Most blades are composed of five layers.

Approximately 70% of the players use a wooden blade. Non-wood layers are used to change the speed and/or the weight of the blade. Some players believe that mixed-material blades offer a larger sweet-spot and more control.

Handle [2]

The handle extends from the blade and can be either flat, rounded or flared. Your playing style and comfort defines the most suitable handle for you. Το στυλ παιχνιδιού και η άνεση καθορίζουν την καταλληλότερη λαβή για ένα άτομο — it is mostly a personal preference. Whatever feels more natural is what you should choose.

Handle Types

Most western players choose the **"Shakehand"** blade style, which is designed for specific handles.

Following you may see the different codes of these handles according to their shape:

- Conical: **CO [1]**
- Anatomic: **AN [2]**
- Straight: **ST [3]**
- Flared: **FL [4]**

[1]

[2]

[3]

[4]

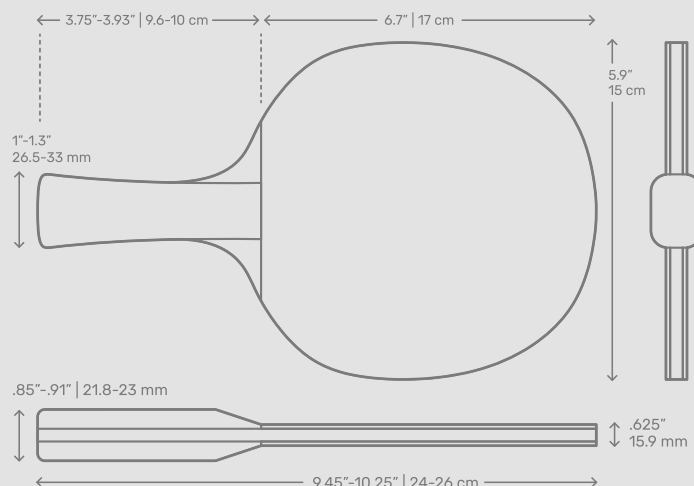

Racket Dimensions and Weight

Rackets have an average blade length of 6,7" (17 cm), blade width of 5,9" (15 cm), and total length of 9,45"-10,25" (240-260 mm). The paddle's weight is between 2,47-3,53 oz (70-100 g).

Players looking for more "control of the ball should select a thinner sponge with a thickness between 0,06"-0,07" (1,5-1,9 mm), while players looking for a more aggressive style should choose a sponge thicker than 0,08" (2 mm).

Details

Racket Width	15 cm	Blade Length	17 cm
Racket Thickness	21,8-23 mm	Handle Length	9,6 - 10 cm
Racket Length	24 - 26 cm	Sponge Thickness	1,5 - 2,5 mm
Racket Weight	70 - 100 gr		

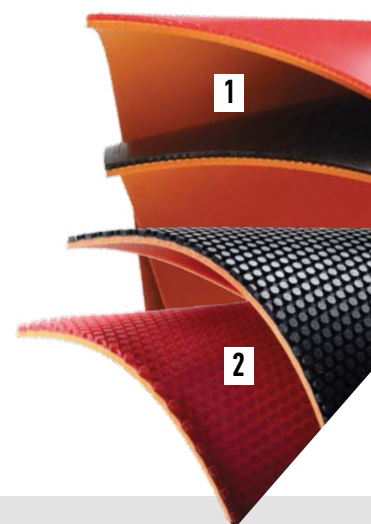

Rubbers [3]

Rubbers cover the "paddle" area on each side of the blade. They provide grip on the ball and are crucial to developing your own style of play, while for tournament use the rubbers should be approved by the ITTF.

Rubber Types

The two main types are **Inverted [1]** and **Pimpled [2]**. The first are divided into **Tacky** (for faster spin) and **Anti-spin**. Pimpled are textured and divided into **Short Pimples-Out** (short "pimples"), similar to Tacky rubbers, but with less friction, and **Long Pimples-Out** (long "pimples"), which are mainly used by defensive players as they tend to slow down the ball and reverse its spin..

Outdoor-Use Rackets

These are suitable for beginners and recreation use, without the advanced characteristics of most quality rackets. They are made of materials that make them resistant to all weather conditions.

The STAG Halo racket is made of resin and artificial rubber for added control and speed, while having air channels for added elasticity and more increased spin.

The CORNILLEAU ecological SoftBat racket has an ergonomic handle, made of recycled fabrics (cotton & polyester).

The SUNFLEX Zircon racket is made of materials suitable for all weather conditions. Its surface is equipped with Xtra Power Grip for perfect control, while it includes air channels for flexibility.

Racket Technologies

A foam-filled handle moderates the vibrations for perfect ball control and unbelievable precision.

A hollow space in the handle saves weight. Pleasant handling, suitable for youth and beginners. For increased agility and reaction.

EVA-layers inside the handle create a harmonic feeling without disturbing vibrations..

A complex recessing of the handle rounds the edges of the grip perfectly.

Unbelievable feeling in the hand palm by handle grip contact, ergonomic handle shape for absolute power transmission.

The unique handle shape minimizes finger slipping and improves the grip contact to the hand palm.

Innovative blade technology, reducing loss of energy when the ball impacts, giving powerful smashes.

Carbon Fleece between wood layers hardens the bat and can improve ball control and ball speed.

Table Tennis in Transition – Performance Meets Independence

The game is changing. More and more players are moving away from the traditional club system, embracing a more individual path – with personal coaching, solo training, and self-driven competition. With this shift comes a higher demand for top-tier equipment.

Modern players don't just pick any paddle – they research, compare, and choose precisely what suits their style. No compromises. No generic gear. Just pure professional quality, selected independently and ordered online.

Our Signature Models are made for this new generation of players – ambitious, informed, self-reliant, and ready to play with elite-level equipment that's now more accessible than ever.

With the Signature series, Sunflex is bringing three very high-quality table tennis bats onto the market, successfully combining leisure and competitive sports. The combination of high-quality workmanship, elegant appearance and excellent playing properties, as well as implementation on complete rackets of sponges used in competitions by established athletes, sets new standards in the field of table tennis complete rackets.

Rubber
ITTF certified, competition quality, produced by Sunflex

Sponge
Innovative "Tense Up" technology: The special polymer composition enhances the high tension effect in the sponge, which allows your strokes to be carried out with explosive power and excellent control.

Premium Wood, Concave Handle
Elegant design and first class craftsmanship: The exquisite handle is made of Italian refined premium wood, combined with a concave and ergonomic handle shape, ensures style and comfort with every stroke.

Carbon Layers
The Power racket has two additional carbon layers for extra stability and power.

Wood Layers
High quality "Kombiplywood" construction: The 5-layer veneer structure made from selected woods provides a perfect balance between speed, control and feel, ideal for versatile playing styles.

Signature Models – Table Tennis Rackets of the Highest Standard

Our Signature Models represent uncompromising premium quality. These are professionally assembled competition rackets, built to meet the demands of high-level players who strive for peak performance.

Make no mistake – these are not "high-end recreational paddles." They are the result of meticulous material selection, expert craftsmanship, and years of experience in professional table tennis. Each racket comes fully assembled and ready for immediate competitive play.

Choosing a Signature Model means choosing excellence without compromise – and performance at the very highest level.

Signature Series – Tournament-Ready. Built for Purists.

Every racket in the Signature Series is officially approved by the ITTF, making it fully eligible for use in tournaments. Professionally assembled and fine-tuned for maximum performance, these rackets deliver exceptional control, speed, and spin.

Each racket comes in a premium storage box with a sleek magnetic closure. Designed for both elegance and function, this packaging doubles as a protective case – perfect for training sessions, match days, or tournament play.

» **Luxury packaging:** The bat comes in a high quality cardboard box with magnetic closure that doubles as a bat cover to protect the racket safely and in style.

» **Box contents:** 1 x Sunflex Signature table tennis bat.

97186

- » Ribbed topsheet with hard sponge
- » Comiblywood - 5 layers of basswood, poplar and balsa
- » Handle: Dark brown italian wood and basswood

SPECIFICATIONS

Rubber: Xonox
 Sponge: 1,8 mm
 Handle: Concave
 Weight: 183 gr
 Packaging: Cardboard box
 Std Pack: 36
 Category: Z13

Blade
Lightweight, controlled ALL+ blade (Lime, Poplar, Balsa).

Ροφίλ Παίκτη
Για επιθετικούς και μη παίκτες που επιδιώκουν σωστό έλεγχο και καλή αίσθηση της μπάλλας.

Rubber
1.8 mm XONOX rubber with medium-hard "Tense-Up" sponge for great spin and moderate speed.

Power
Combines control (through the blade) with offensive power (through the rubber).

Playing Style
Ideal for precise, versatile play, where the player always retains control.

Signature Xonox

Controlled Precision Meets Offensive Power

97187

- » Soft and sticky topsheet with hard sponge
- » Comiblywood - 5 layers of ayous, awan and kiri
- » Handle: Dark grey italian wood and walnut wood

SPECIFICATIONS

Rubber: Zeno
 Sponge: 2,0 mm
 Handle: Concave
 Weight: 175 gr
 Packaging: Cardboard box
 Std Pack: 36
 Category: Z13

Blade
Fast OFF blade made from Ayous, Awan, and Kiri, perfect for quick attacks.

Player Profile
Players who want an offensive game but still need high control.

Rubber
ZENO rubber with 2.0 mm sponge and a slightly tacky surface for excellent control and spin.

Power
High dynamics (from the blade) with balanced control (from the rubber).

Playing Style
Perfect for aggressive topspins and dynamic attacking shots without sacrificing control.

Signature Zeno

Power from the Blade, Control from the Rubber

97188

Gift Set

For use with classic and electronic dartboards

Extra shafts
When you want to change how your darts look

Toolkit
Special multitool for all your needs

3 x flight sets
3 different flight sets to change how your darts look

Add-a-gram
To adjust the weight of your darts, especially when changing tips, since iron tips are considerably heavier than plastic ones

Always use your own darts
You will always be able to exclusively use your own darts, which you have become accustomed to, wherever you may go simply by swapping the tips

Swimming Goggles

Comfort, Protection & Performance in the Water

Clear vision under all circumstances

Good visibility is a must for a comfortable and enjoyable swimming experience. Swimming goggles offer clear underwater vision, reducing glare and protecting the eyes from chlorine and sunlight. Whether swimming in an indoor pool or outside, the right choice is very important.

Long-lasting comfort

Proper fit is imperative. Modern goggles are designed to fit snugly over the eyes, providing stability without excessive pressure. Comfort allows longer use without any discomfort.

Stability while swimming

Swimming requires safety and stability of the goggles. The adjustment systems allow for easy and quick adjustment, so that the goggles remain in place even during sharp turns or fast movements.

Designed for all levels

The range meets a variety of needs: From children's models with a focus on ease and comfort, to others designed for rigorous training and demanding use. All categories combine functionality, durability, and modern aesthetics.

Because the right choice matters

The correct goggles not only offer protection, they also boost confidence and improve the experience in the water. When they fit properly and your vision is clear, you can focus entirely on your movements and performance.

LENSES (Vision underwater) [1]

Lenses ensure clarity, protection, and comfort for the eyes.

Material:

Polycarbonate

Lightweight and durable thermoplastic. Impact resistant, does not break easily.

Type of lenses

- **Clear**
Ideal for indoor pools and low lighting. They provide natural and clear vision.
- **Tinted / Smoked**
They reduce the intensity of light. Suitable for outdoor use.
- **Mirror**
They have a reflective coating and offer maximum protection from the sun's rays.

Lense Treatments

- **UV Protection**
Ultraviolet filter.
- **Anti-Fog coating**
Special anti-fog treatment.
- **Corrective (myopic)**

How to choose lenses?

- + **Clear** If you swim in an indoor pool
- **Tinted or Mirror** When swimming outside
- **Anti-Fog** If you swim often

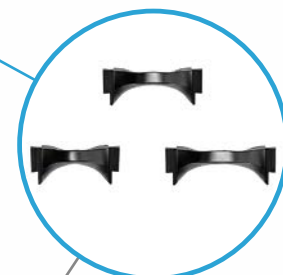

NOSE BRIDGE [3]

Connects the two lenses and ensures proper fit.

Bridge Types

- Fixed (unibody frame)
- Adjustable with interchangeable sizes (S, M, L)
- Adjustable (using just one bridge)

✓ Ensures correct lens distance & better fit for different-shaped faces.

GASKET (Waterproofing) [2]

The soft material that fits around the eye and ensures watertightness.

Material:

TPE (Thermoplastic Elastomer)

Rubber-type elastic material that can be molded like plastic.

- ✓ Water and chlorine resistant
- ✓ Lightweight
- ✓ Economical
- ✓ Secure fit

Suitable for everyday and amateur use.

The most important point concerning:

- ✓ Comfort
- ✓ Preventing leaks
- ✓ Secure fit

Material:

Silicone

Softer and more durable synthetic polymer.

- ✓ More comfortable feeling
- ✓ Better sealing
- ✓ Longer service life
- ✓ Doesn't harden easily

Suitable for frequent training and demanding use.

STRAP & ADJUSTMENT SYSTEM [4]

Keeps glasses in place while swimming.

Strap

Material:

Silicone

- ✓ Greater durability
- ✓ Greater stability

Material:

TPE (Thermoplastic Elastomer)

- ✓ Lighter
- ✓ Less expensive

Adjustment System Types

• Slide Adjuster (without a button)

- ✓ The strap goes through a plastic guide that holds it in place by friction.
- ✓ No separate button.
- ✓ Standard, simple mechanism.

• Rear Central Adjuster

- ✓ Both straps are simultaneously adjusted on the back of the head.
- ✓ One movement to tighten or loosen.

• Side Quick-Release Adjuster

- ✓ Comfier feel
- ✓ Better sealing
- ✓ Longer service life
- ✓ Doesn't harden easily

• Ratchet / Click Adjuster

- ✓ Notched mechanism with snap positions.
- ✓ Each notch slightly changes the length.

TYPE OF USER	LENSE	LENSE MATERIAL	EYE SEAL	NOSE-BRIDGE	STRAP ADJUSTMENT	STRAP	EXTRA	WHY TO CHOOSE
JUNIOR RECREATION	Clear	Polycarbonate	TPE	Fixed or simple adjustable	Side Quick-Release / Slide	Single or simple split	Anti-fog	Easy adjustment, comfort, low pressure
FITNESS AMATEUR	Clear or Light Tinted	Polycarbonate	Silicone or TPE	Adjustable	Slide / Rear Central	Split Strap	Anti-fog, UV	Balanced between comfort & stability
FREQUENT TRAINING	Tinted / Smoked	Polycarbonate	Silicone	Adjustable (S/M/L)	Rear Central / Ratchet	Double (Split)	Anti-fog + UV	Premium durability with optimal stability
OPEN WATER	Mirror or Dark Tinted	Polycarbonate	Silicone	Adjustable	Rear Central / Slide	Split	UV Protection	Wider vision, leak resistance, easy adjustment
COMPETITIVE	Mirror / Low Profile	Polycarbonate	Slim silicone shape	Replaceable	Ratchet / Swedish String	Thin strap	Anti-fog	Hydrodynamic & perfect fit

* Τα παραπάνω χαρακτηριστικά βασίζονται σε συνήθειες πρακτικές της παγκόσμιας αγοράς γυαλιών κολύμβησης. Η τελική επιλογή εξαρτάται από τις ανάγκες και τις προτιμήσεις του χρήστη.

FOX 40 whistles

FOX40's idea for a peiless whistle

Ron Foxcroft, founder of FOX40, made a wish list of features for a better whistle and showed it to a plastics molding company in Stoney Creek, Ontario. They agreed to make parts for such a whistle if Foxcroft could present them with a design. They also recommended an Oakville, Ontario design consultant, Chuck Shepherd, who agreed to take on the project.

The first prototype Chuck produced was louder and more reliable than a pea-style whistle, but too large and awkward. Undaunted, Shepherd worked with Foxcroft through more than 14 prototypes before at last perfecting the Fox 40 peiless whistle.

The Fox 40 Peiless Whistle is much like a harmonically-tuned instrument, because it produces three slightly different frequencies simultaneously. The result is a loud, piercing vibrato that has no moving parts to get stuck. The whistle is a plastic-molded injection process that is ultrasonically welded together, rather than glued.

Perseverance pays off!

The Fox 40 Peiless Whistle was a success from the first time it was used professionally, at the 1987 Pan Am Games in Indianapolis, Indiana. Fox 40 Peiless Whistles have since been used in numerous world-class tournaments, such as the Olympics and the World Cup.

What's the difference between FOX40 whistles and the others?

The Fox 40 Peiless Whistle is much like a harmonically-tuned instrument, because it produces three slightly different frequencies simultaneously. The different frequencies are superimposed on one another out of phase, and thus alternately reinforce and cancel out each other. The result is a loud, piercing vibrato that has no moving parts to get stuck. The whistle is a plastic-molded injection process that is ultrasonically welded together, rather than glued.

Water Bottles

Plastic water bottles have become part of our daily life and can be found in various shapes, sizes and colors. Many bottles available on the market are dangerous for our health since, by being exposed to high temperatures, harmful substances are produced.

MILTON

tritan™

EASTMAN

What is Tritan

Tritan is a new material, developed by Eastman in the USA and can easily replace bottles made of Polycarbonates. Its scientific name is copolyester, can be safely used for food/drinks, protects the environment and has been certified by JHOSPA.

Why Tritan?

Characteristics of Tritan

- Among the best BPA-free bottles on the market
- 100% waterproof and stand out for their modern design
- Reusable
- Do not retain smells or odors
- Very lightweight
- Extremely durable and resistant to impact and heat, very difficult to break or melt
- Can withstand temperatures from -20° C to 100° C, suitable for hot drinks
- Ecological

41971

- » Zero leakage
- » Convenient lid design
- » Wide opening for cleaning

Τα λάστιχα αλλά και οι ιμάντες είναι κατασκευασμένοι από **φυσικό Latex**. Η καλύτερη ποιότητα φυσικού Latex, είναι το Καουτσούκ που βγαίνει από τα δένδρα της Μαλαισίας (rubber tree). Τα χαρακτηριστικά του φυσικού Latex **που συναντάμε συνήθως στην αγορά** είναι:

- + Μεγάλη επιμήκυνση (μέχρι και 5 φορές).
- + Διάρκεια ζωής (αυξημένη 10-20% περισσότερο από τα Latex free).
- Όχι απόλυτη γραμμικότητα της αντίστασης.
- Το γαλακτώδες υγρό του φυσικού λάστιχου δημιουργεί αλλεργίες εξ αίτια των πρωτεϊνών που περιέχονται σε αυτό.
- Χρειάζεται να πουδραρισθεί για να μην έχει την αίσθηση της κόλλας.

Πόσο καιρό μπορεί να χρησιμοποιείτε μια ζώνη αντίστασης;

Οι ζώνες αντίστασης της **Sanctband** είναι **κατασκευασμένες από υψηλής ποιότητας καουτσούκ**, όμως δεν παύει να είναι ένα ελαστικό. Αν προσεχθεί (δεν χρησιμοποιηθεί σε τραχείς επιφάνειες, δεν τεντώσει πάνω από το μέγιστο μήκος, δεν εκτίθεται στον ήλιο κ.λπ.) η ζωή **μπορεί να διαρκέσει από 3 μήνες έως και 1 χρόνο**, υπό κανονικές συνθήκες (οικιακής χρήσης/άτομο).

Χαρακτηριστικά Sanctband

Χωρίς Πούδρα: Τα προϊόντα της Sanctband έχουν εξαλείψει την ανάγκη για χρήση πούδρας.

Χαμηλή Πρωτεΐνη: Ελαχιστοποίηση των αλλεργικών παθήσεων με την απομάκρυνση των πρωτεϊνών από το γαλακτώδες καουτσούκ.

Διάρκεια Ζωής: Υλικά ανθεκτικά στις επαναλήψεις που βελτιώνουν 10% της διάρκεια ζωής του ελαστικού.

Αποτελεσματικότητα: Εξασφαλίζουν την γραμμικότητα της αντίστασης κατά την επιμήκυνση του ελαστικού.

Ασφάλεια: Διατηρούν τις ιδιότητές τους -δίχως θραύση- ακόμα και με 500% επιμήκυνση.

Φιλικά στο Περιβάλλον: Τα προϊόντα της Sanctband κατασκευάζονται με μεθόδους φιλικούς στο περιβάλλον, από καθαρή ενέργεια, μικρής κατανάλωσης και μειωμένου όγκου αποβλήτων.

Επιμήκυνση

Επιμήκυνση από 100% σε 200% υποδηλώνει την αντίσταση που παρέχετε από το ελαστικό όταν τεντώνει από 2 σε 3 φορές περισσότερο (έχει γίνει διπλάσιο ή τριπλάσιο) του αρχικού του μεγέθους.

Για παράδειγμα, αν μια ζώνη αντίστασης έχει μήκος 1 μέτρο, όταν επεκταθεί στα 2 μέτρα τότε το έχετε κάνει διπλάσιο (100% πάνω) του κανονικού μήκους ηρεμίας.

Σημείωση: Η δύναμη αντίστασης εφαρμόζεται σε οποιοδήποτε μήκος της ζώνης και αν τεντωθεί, όχι μόνο σε ολόκληρο το μήκος. Εάν δηλαδή ένα τμήμα 40cm τεντωθεί έως το 1,2m, τότε έχει γίνει τριπλάσιο (τεντώθηκε 200%) του μήκους ηρεμίας του.

Sanctband

"Λάστιχα/Ελαστικά Αντίστασης", "Σωλήνες Αντίστασης" ή "Ζώνες Αντίστασης"

είναι ένας γενικός όρος για κάθε ελαστικό σωλήνα ή ζώνη (μπάντα, λεπτή ταινία) που χρησιμοποιείτε για τις ασκήσεις ενδυνάμωσης (π.χ. ασκήσεις αντίστασης), δηλαδή τις ασκήσεις που εφαρμόζεται στο σώμα μια δύναμη αντίστασης η οποία είναι μεγαλύτερη από την κανονική.

Αυτή η δύναμη μπορεί να παρέχεται κάνοντας χρήση μηχανημάτων, αλτήρων και άλλων παρεμφερή βαρών (kettlebells κ.α.) ή **ελαστικών αντίστασης**.

Το σώμα δεν μπορεί να καταλάβει διαφορές στις ασκήσεις ενδυνάμωσης που γίνονται κάνοντας χρήση οργάνων, μεταλλικών βαρών ή ελαστικών αντίστασης. Οι μύες θα εξακολουθούν να δυναμώνουν σε όλες τις περιπτώσεις.

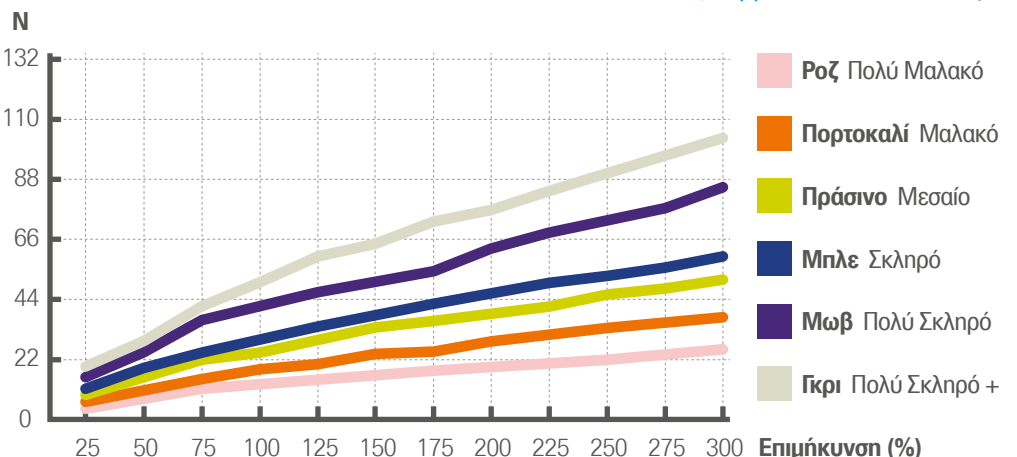

Η **Sanctband** είναι Μαλαισιανή εταιρεία και έχει στην ιδιοκτησία της ένα από τα τρία (3) εργοστάσια στην Μαλαισία που παράγουν λάστιχα και ιμάντες από **φυσικό Μαλαισιανό Latex**.

Έχει αναπτύξει δικές της μεθόδους παραγωγής που **επιλύουν τα αρνητικά σημεία του φυσικού Latex και βελτιώνουν την απόδοση**.

Γιατί θα πρέπει να δοκιμάσετε τα "exercise band" της Sanctband;

- **Φορπτότητα - ευκολία στην μετακίνηση** Ο εξαιρετικά μικρός τους όγκος, σε συνδυασμό με το ελάχιστο βάρος τους, καθιστά την μεταφορά εφικτή από οποιαδήποτε αποσκευή, ακόμα και μέσω της τσάντας που χρησιμοποιούμε στην καθημερινότητά μας.
- **Ομαλότητα** Η προοδευτική γραμμική αύξηση της αντίστασης κατά την ένταση των ασκήσεων προσφέρει ομαλότητα στο σώμα, ειδικότερα στις αρθρώσεις.
- **Αύξηση της ισορροπίας και της ικανότητας συντονισμού του σώματος** Επειδή υπάρχει αρκετή ένταση κατά τη διάρκεια των ασκήσεων, το σώμα πρέπει να είναι σταθεροποιημένο. Η εκτέλεση ασκήσεων με λάστιχα γυμναστικής απαιτεί υψηλές ικανότητες συντονισμού (με την άσκηση και την ισορροπία του σώματος), κάτι που επί τις ουσίας γυμνάζει επιπλέον μύες και **είναι πολύ διασκεδαστικό!**
- **Ποικιλία** Η δυνατότητα να **μεταβάλλεται συνεχώς η ένταση** για να γίνει η εκγύμναση περισσότερο ή λιγότερο δυναμική **δίχως παύσεις** σε συνδυασμό με την **εκτέλεση πολύπλοκων ασκήσεων**, που δεν μπορούν να γίνουν εύκολα (ή και καθόλου) με χρήση μηχανών ή ελεύθερων βαρών, κάνει τα exercise bands τη μοναδική λύση για αυτές τις απαιτήσεις.
- **Κόστος** Κανένας άλλος εξοπλισμός για ασκήσεις ενδυνάμωσης δεν προσφέρετε σε ελκυστικότερες τιμές. Ακόμα και αν επιλεγούν 2, 3 ή και 4 λάστιχα με διαφορετικά επίπεδα αντίστασης, το συνολικό κόστος είναι πολύ μικρότερο από οποιονδήποτε άλλο προϊόν.
- **Ιδανικά για όλα τα επίπεδα φυσικής κατάστασης** Ο τρόπος που χρησιμοποιούνται τα καθιστά ιδανικά τόσο σε αρχάριους όσο και σε προχωρημένους. Μπορούν να χρησιμοποιηθούν από βασικές κινήσεις μέχρι την προσθήκη έντασης σε εξειδικευμένες ασκήσεις.

88283	\$ 8,05	1,60mm	Hard	
88284	\$ 8,90	1,80mm	Very Hard	

» Benefits: The Floss Band is an essential performance tool and should be a staple in the gym bag of every athlete looking to improve range, restore joint mechanics, or unglue matted down or previously injured tissue. Compression tack and flossing works on many levels; including re-perfusing tissues that have become stiff or gone cold after injury, and by compressing swelling out of tissues and joints.

» Thickness: Thicker band provides more compression and is better suited in difficult areas like the high hips. This band is also great for larger athletes like powerlifters and strongmen when more compression is needed.

POWERBAND

Recovery

The tightening of the muscles after intense training often results in feeling pain, stiffness of the joints and cramps.

AMILA PowerBand, providing leverage and resistance, allows for greater stretches to be performed without straining the already strained muscles.

The resulting muscle conditioning ultimately facilitates their complete relaxation, which can

shorten recovery time and improve overall performance.

Flexibility

AMILA PowerBand helps to improving flexibility and control of the force while stretching, so that all parts of the joints work securely.

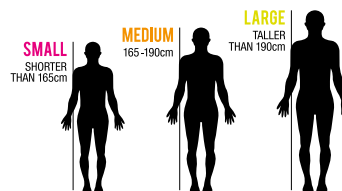

And much more

Good stretches help to relax or prevent muscle cramps even after a long journey.

LOOPBAND

Φυσική Κατάσταση | Αποκατάσταση | Ενδυνάμωση

Advantages:

By using the bands you may **increase the strength and flexibility of the muscles**, speed up **treatment of injuries** and rehabilitation, while also **increasing your endurance**.

They offer a **safe and effective form of resistance**.

They offer a more **gentle and controlled resistance**, one that is less likely to cause injury or strain the muscles, compared to free weights.

Training with bands is a lot more **friendly to joints and tendons**.

Bands can be used to target **all muscle groups** individually or at the same time while doing certain exercises.

You may perform exercises such as bicep curls, tricep extensions, shoulder presses, squats, dead lifts and a lot more other polyarticular or monoarticular exercises.

You can always have AMILA Loop Bands with you, since they **do not take up any space**. A complete gym can fit in your bag!

How to wrap your hand

- Open your hand and wrap the hand wrap around your thumb, pull it across your palm, then behind your wrist, then across your palm to the base of your little finger.
- Continue wrapping near the base of your fingers, at least twice.
- Wrap around from the wrist to the thumb. Wrap the thumb as well.
- Continue the procedure towards the little finger, and then back toward the thumb. Finish wrapping on the wrist.

MAKURA SPORT™ specialises in designing and manufacturing high-quality competitively priced mouthguards for athletes around the world. All mouthguards are CE certified, with an added certification by SATRA.

MAKURA SPORT™ initially manufactured personal protective equipment in general for athletes. But, it soon specialized in the production of mouthguards, in a dedicated factory, using its own tools, featuring proprietary technology, like SHOKBLOKER™, GELFORM™, FLEXICORE™ and BOIL & BITE™.

Their basic technologies are as follows:

SLIPSAFE PADS
raised areas on underside, prevent slipping

BOIL & BITE™
custom fit for maximum comfort

ORTHO CHANNEL
designed to fit over braces

AIRTHRU CHANNEL
helps breathing while jaws are closed

GELFORM™ LINER
softened gel creates precise mould

FLEXICORE™,
reinforced strength and additional protection

SHOKBLOKER™ absorbs and diffuses frontal/transverse impact

DESIGNED FOR BRACES,
specifically designed for wearers of fixed braces

6017514505

\$ 2,07

Anti-Microbial Case

For all Makura mouthguards

» Hygienic protection for Makura's full range of mouthguards. Made using Anti-Microbial Agent 7016A, which kills up to 99.9% of bacteria

» Superior resistance to heat and light compared to other antimicrobial agents

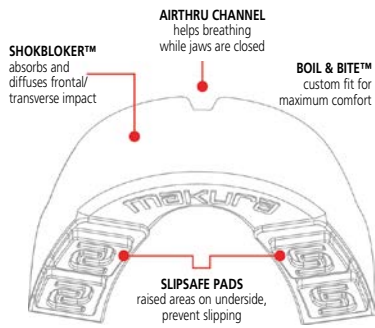

» Tested protection against more than 200 types of pollutants
